Safety has never been so attractive

Intense white Xenon effect

Philips WhiteVision lamps add an intense white Xenon look (4300K) to your car headlights for a premium driving experience at night. The increased brightness of up to 60% more light makes it the perfect combination of style and safety.

Maximum visibility, premium look
- A premium driving experience with intense white Xenon effect

4300K stylish white light for your car
- Crisp beam with intense white light

Increased brightness to combine style and safety
- Up to 60% more vision to maximize clarity

100% more vision on the road
- 100% road legal, 100% intense white light
- Philips car lamps are highly resistant
- Philips is the choice of major car manufacturers

Highlights

A 4300K driving experience

Philips WhiteVision headlights are the right choice for drivers who want to drive with style without compromising on safety. With a color temperature of close to Xenon headlamps, a stylish white cap and brighter light on the road, WhiteVision is the ultimate upgrade for your headlamps. The Philips patented 3rd generation coating technology is an evolutionary masterpiece making WhiteVision the first headlamp with a truly white light.

Crisp white beam

With 4,300K* white light (i.e. 40% whiter light than standard lamp), Philips WhiteVision headlights illuminate the road ahead with a crisp white beam that eliminates darkness instantly. The premium beam for a premium driving experience.

60% more light on the road

A longer beam pattern with 60%* more light enables you to see other road users more clearly. It improves safety, giving you more time to react to potential hazards on the road ahead.

100% road legal

WhiteVision is ECE certified and the first road-legal intense white light. It gives you the ultimate in high visibility without compromising safety by dazzling the car in front.

High quality, high resistance

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of early failure. Philips UV-Quartz glass car lamps allow more pressure inside the lamp to produce a more powerful light and extended lifetime.

The car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Specifications

Product description

Technology: Halogen
Type: HB4
Range: WhiteVision
Application: High beam, Low beam, Additional high beam
Designation: HB4 WhiteVision
Homologation ECE
Marking ECE: E1 22T
Base: P22d

Electrical characteristics

Voltage: 12 V
Wattage: 55 W

Light characteristics

Lumens: 1095 ±15% lm
Color temperature: 4100 K

Lifetime

Life time: B3/Tc = 200/400

Ordering information

Order entry: 9006WHVS2
Ordering code: 36933530

Packaging Data

Packaging type: S2
EAN1: 8727900369335
EAN3: 8727900369342

Packed product information

Height: 10.9 cm
Width: 5.3 cm
Length: 10.9 cm
Pack Quantity / MOQ: 10
Gross weight per piece: 75.5 g
Net weight per piece: 20 g

Outerpack information

Gross weight per piece: 1.5 kg
Height: 13 cm
Length: 33 cm
Width: 23.5 cm

Marketing specifications

Expected benefits: Whiter light
Product highlight: 4300K
