HD7762/00

Change and mix beans to your taste!

The only Grind & Brew with two bean containers

This very compact Grind & Brew coffee maker with grinder comes with a modern design and a unique brewing control knob to easily set your preferences for great tasting coffee.

Great taste and aroma

- Integrated bean grinder for freshly ground coffee
- Fresh bean duo-container for more variety
- Bean selector for choosing between 3 types of coffee blends
- Aroma twister circulates the coffee for an optimal taste

Designed around you

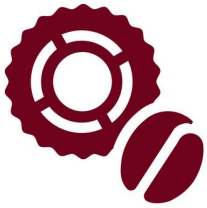
- Strength select for adjusting the intensity of your coffee
- Grind selector knob for setting your favorite taste
- Grind-off function for using ground coffee
- Select easily the coffee settings with the LCD display

Easy to experience

- Timer to wake up with the smell of fresh coffee
- Drip stop to pour a cup of coffee whenever you like
- Water level indication for easy filling
- Swing filter holder for easy filling of coffee

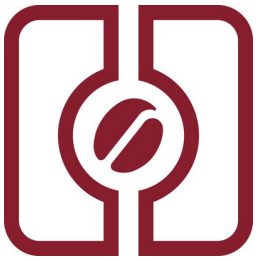
Highlights

Integrated bean grinder



To have the delicious taste of freshly ground coffee, fresh coffee beans are grinded before brewing. This coffee maker has conical burr grinders to have the optimal grind size, which ensures the best taste.

Fresh bean duo-container

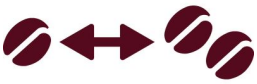


With the duo-container you can store two types of fresh beans. This allows you to enjoy a wider variety of coffee beans.

Bean selector

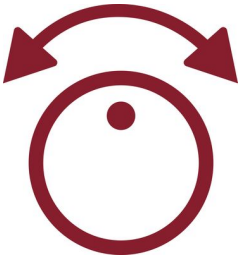
Enjoy a variety of 3 types of coffee blends, by selecting which beans to be used for brewing the coffee. You can choose between the two types of coffee beans, or create your own blend, by mixing them together.

Strength select



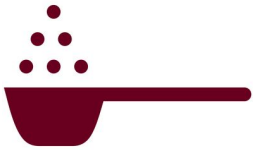
Adjust the intensity of your coffee from mild, medium or intense coffee.

Easy selection of settings



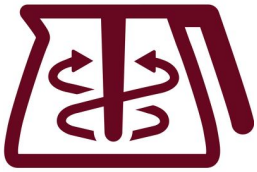
Thanks to the LCD display and unique brewing knob, you can easily select the coffee settings you prefer, for instance the number of cups, coffee strenght and timer.

Ground coffee brew



You can also use ground coffee instead of coffee beans. The grind-off function disables the grinder and you can simply fill ground coffee into the filter.

Aroma twister



This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

Adjustable keep-warm time

Select how long you want your coffee to stay hot after brewing. You can adjust the automatic shut-off time from 30 minutes up to 2 hours.

Timer

Wake up with the smell of fresh coffee thanks to the timer. Prepare your coffee maker, set the time, and a fresh jug of coffee is brewed at the time you desire.

Specifications

Accessories
Included: Glass jug

Sustainability
Power consumption brewing: 1000 W

Weight and dimensions
Dimensions of product (WxDxH): 212 x 277 x 440 mm
Weight incl. packaging: 6.2 kg
Weight of product: 4.6 kg

Design
