- Easy to clean and safe sterilizing

Highlights

Compact 2-in-1 sterilizer

Efficiently sterilize your bottles and accessories, by putting teats, caps and soothers in the included small basket. The sterilizer also has a slender design that won't take up much space.

Natural steam sterilizing

The sterilizer uses natural steam to sterilize baby bottles and other products, killing 99.9% of harmful germs without using chemicals. Perfect for giving you peace of mind that all your baby bottles and other products are sterile.

Sterile for up to 24 hours

The sterilizer will keep its contents - baby bottles, breast pumps etc - sterile for up to 24 hours if the lid is unopened.

Fast sterilization

The sterilizing cycle lasts approximately 10 minutes, after which it switches off automatically.

Spacious design

The sterilizer has a compact design yet cleverly fits up to 5 Philips Avent baby bottles at once.

Open design

With our open design you can easily keep the heating plate clean, allowing you to sterilize with clean steam every time.

Works across bottle types

The sterilizer is suitable for use with both standard neck and wide neck baby bottles. It also fits other baby products like breast pumps and accessories.

Multi-function lid design

The sterilizer's lid has been cleverly designed so that it can be hung on the side of the sterilizer after use or used to take out and stand the baby bottles and other products on.
