Feel safe, ride safe

30% more light

Producing 30% more light than a standard lamp, PremiumVision Moto headlamps allow motorcycle riders to see further with improved light beam performance.

30% more vision than a standard lamp

- 30% more vision

High quality and ultra resistant headlamp

- Adhering to high quality standards of the ECE homologation
- Philips car lamps are highly resistant against humidity*
- Philips car lamps are highly UV resistant
- Philips is the choice of major car manufacturers
- Philips moto lamps are made of high-quality quartz glass

PHILIPS

Motorcycle headlights
Type of lamp: M5 Pack of: 1, 12 V,35/35 W

Highlights

Greater light-beam projection

Offering 30% more vision on the road, Philips PremiumVision Moto headlamps are the perfect choice for motorcycle riders seeking for light performance and safety. With better light output, riders can react faster to obstacles and avoid accidents.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

ECE compliant

PremiumVision Moto is fully compliant to ECE for road-legal use. ^Application varies per bulb type.

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : such as, if a drop of cold water touches the hot bulb, when you drive through water with a broken headlight unit.

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass perfect for all driving conditions and ensures their longevity

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Specifications

Product description

- Designation: M5 PremiumVision Moto
- Range: PremiumVision Moto
- Technology: Halogen
- Application: High beam, Low beam, Additional high beam
- Base: P15d-25-1
- Homologation ECE: NO
- Marking ECE: N/A
- Type: M5

Ordering information

- Order entry: 12153C1
- Ordering code: 37175860

Packaging Data

- Packaging type: C1L
- EAN1: 8727900371758
- EAN3: 8727900371772

Lifetime

- Life time: HB 150 / LB 200

Electrical characteristics

- Voltage: 12 V
- Wattage: 35/35W W

Light characteristics

- Lumens: 720 lm ± 15% lm

Marketing specifications

- Expected benefits: More light
- Product highlight: 30% More light

Outerpack information

- Gross weight per piece: 1470 g
- Height: 13.6 cm
- Length: 26 cm
- Net weight per piece: 0.934 g
- Width: 13.6 cm

Packed product information

- Gross weight per piece: 14.7 g
- Height: 6.5 cm
- Length: 2.7 cm
- Net weight per piece: 9.34 g
- Pack Quantity / MOQ: 100
- Width: 2.7 cm

Issue date 2020-02-03

Version: 6.1.1

12 NC: 9235 416 17101
