Color your lights

Philips ColorVision allows to add a personalized touch of color to your car optics. Choose from blue, green, yellow or purple and customize your ride.

Road legal colored car lamps

ColorVision lamps comply with all ECE regulations and come with a certification card to

prove they are road legal. Keep it with you in your car at all times.

**React faster with more light**

Increased visibility is proven to help you react faster while driving. With whiter light and up to 60% more vision, ColorVision increases your visibility compared to standard lamps. Anticipate easier to any obstacles that might come your way.

**A new coating technology**

Thanks to a special coating on the lamps, Philips ColorVision adds a touch of color which is in line with European regulation. So you can customize your ride while still projecting safe white light

**Designed for reflector optics**

Philips ColorVision creates colored effects by reflecting light into the lamp optics. Switch on

your headlamps and light up with a touch of color

**60% more white light**

Thanks to its technology, Philips ColorVision lights up the road with 60% more white light than any other standard lamp. So you see the road ahead more clearly, while your optics add a touch of color

**Car manufacturer choice**

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting
