

Philips X-tremeVision  
Moto  
Motorcycle headlights

Type of lamp: H7  
Pack of: 1  
12 V, 55 W

12972XVBW

## Feel safe, ride safe

Up to 100% more vision

For maximum performance and safety, Philips X-tremeVision Moto bulbs are engineered with state-of-the-art technology to offer up to 100% more vision for riders who need to see farther.

### State-of-the-art technology

- Philips is the choice of major motorbike manufacturers.
- Respecting the high quality standards of ECE homologation
- Unique filament design and optimised geometry

### 100% more vision on the road

- Up to 100% more vision on the road
- Better lifetime and durability
- Philips moto lamps are made of high-quality quartz glass
- Maximum brightness on the road

# PHILIPS

Motorcycle headlights  
Type of lamp: H7 Pack of: 1, 12 V, 55 W

# Specifications

## Packaging Data

- Packaging type: Blister
- EAN1: 8727900351514
- EAN3: 8727900351521

## Electrical characteristics

- Voltage: 12 V
- Wattage: 55 W

## Lifetime

- Lifespan: 350 h

## Light characteristics

- Lumens: 1500

## Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 100% more vision

## Product description

- Designation: H7 X-tremeVision Moto
- Range: X-tremeVision Moto

- Technology: Halogen
- Base: PX26d
- Application: High beam, Low beam
- Type: H7

## Ordering information

- Ordering code: 35151430
- Order entry: 12972XVBW

## Outer pack information

- Gross weight per piece: 350 g
- Height: 13 cm
- Length: 19 cm
- Width: 19 cm

## Packed product information

- Gross weight per piece: 35 g
- Height: 12.900 cm
- Length: 9.500 cm
- Net weight per piece: 12.4 g
- Pack Quantity / MOQ: 10
- Width: 3.500 cm

12972XVBW

# Highlights

## ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in the aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximise the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

## Manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

## Unique filament design

Thanks to an improved filament design, a specific gas mixture and optimised geometry, Philips X-tremeVision moto headlamps achieve unique brightness and durability.

## Up to 100% more vision on the road

Thanks to improved filament geometry and the use of unique gas compositions the X-tremeVision Moto headlamps project up to 100% more vision.

## Better lifetime and durability

"Philips X-tremeVision Moto bulbs are designed with state-of-the-art technology that improves lifetime and durability. The bulbs are filled with a unique gas that reduces the deterioration of the lamp's filament and increases its lifetime".

## High-quality quartz glass

UV-quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650°C and glass 800°C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

## Maximum brightness

Based on a unique filament design and optimised geometry, X-tremeVision Moto lamps are engineered with state-of-the-art technology for ultimate performance and bright, white light where it matters the most.
