Highlights

Built for commercial use

Philips Connectivity Panel is a commercial product, built with high-quality materials for intensive daily use by hotel guests.

Stand alone configurations

Seamless integration with Philips TVs in stand-alone configuration is supported, see compatibility list.

Multiple mounting options

Philips Convenience Panel can be mounted in various ways, e.g. in the wall, on the desk or as a furniture build-in. An optional desktop kit is required to mount the panel to a desk.

Interactive entertainment

Game consoles can be connected to the TV through composite audio/video or HDMI connectors.

iPod & MP3 audio listening

Guests can listen to music from the source of their choice (iPod, other MP3 Player, or audio output from their PC) through plug & play connection with 3.5mm audio jack

Viewing of video media

Viewing of video media from PC, camcorder, DVD player and various other devices is supported through VGA, composite audio/video, S-Video and HDMI connectors

USB charging

USB 5V power socket allows guests to charge their personal devices.

Indicator lights

Indicator lights provide easy to understand feedback to guests, by showing which input is active.

Select input press on button

Press on button for easy input selection.
