1. **Important safety instructions**

**Read Before Operating Equipment**

1. For the quickest and most trouble free installation, please consult the quick start guide that came packed in the television or download it from www.philips.com/hospitality.

2. Keep these instructions.

3. Heed all warnings.

4. Follow all instructions.

5. Do not use this TV near water.

6. Clean only with a dry, soft, non-abrasive cloth.

7. Do not block any of the ventilation openings.

8. Install in accordance with the manufacturers instructions.

9. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

10. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and third grounding prong. The wide blade or third prong are provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

11. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles and at the exit point.

12. Only use attachments/accessories specified by the manufacturer.

13. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the TV. When a cart is used, use caution when moving the cart/TV combination to avoid injury from tip-over.

14. Unplug this TV during lightning storms or when unused for long periods of time.

15. Refer all servicing to qualified service personnel. Servicing is required when the TV has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into apparatus, the TV has been exposed to rain or moisture, does not operate normally, or has been dropped.

16. This product may contain lead and mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities or the Electronic Industries Alliance: www.eiae.org

17. Damage Requiring Service - The TV should be serviced by qualified service personnel when:

   - The power supply cord or the plug has been damaged; or
   - Objects have fallen, or liquid has been spilled into the TV; or
   - The TV has been exposed to rain; or
   - The TV does not appear to operate normally or exhibits a marked change in performance; or
   - The TV has been dropped, or the enclosure damaged.
Know these safety symbols

This “bolt of lightning” indicates material not insulated within your unit which may cause an electrical shock.

For the safety of everyone in your property, please do not remove product covering.

The “exclamation point” calls attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.

⚠️ WARNING: To reduce the risk of fire or electric shock, this appliance should not be exposed to rain or moisture and objects filled with liquids, such as vases, should not be placed on this apparatus.

⚠️ CAUTION: To prevent electric shock, match wide blade of plug to wide slot, and fully insert.

Example of America Grounding as per NEC - National Electric Code
2. Safety information and useful tips

1. Two people are required to lift and carry a TV that weighs more than 55 lb (25 kg). Improper handling of the TV can cause serious injury.

2. If you place the TV set on a solid surface. Ensure the surface is level and that it can withstand the weight of the TV.

3. Installing the TV on the wall requires special skill that should only be performed by a qualified personnel. You should not attempt to do the work yourself. Philips bears no responsibility for improper mounting or mounting that results in accident or injury. Make sure that the wall mount is being fixed securely enough so that it meets safety standards.

4. This TV is compatible with the VESA wall mounting standard. Please contact your local electronics supplier for a VESA compliant bracket to wall mount this TV. Before you mount your TV on a wall, ensure the wall is suitable to carry the weight of the TV.

5. Do not insert the power plug in the wall socket before all connections are made.

6. Do not touch any part of the TV, power lead, or aerial lead during lightning storms.

7. Do not leave the TV in stand-by mode for an extended period of time. Instead, disconnect the TV from the mains.

8. The TV set is always connected to the mains. Disconnection of the TV set can be done by:
   • unplugging the mains cord located at the back of TV set, or
   • unplugging the mains plug from the mains socket outlet.

9. Pull the power lead by the plug - do not pull by the wire.

10. If the TV is mounted on a swivel base or swivel arm, ensure no strain is placed on the power cord when the TV is swivelled. Strain on the power cord can loosen connections and cause arcing or fire.

11. Verify that the mains supply voltage in your location corresponds to the voltage printed on the sticker at the rear of the TV.
### 3. Before calling service

Check this list of symptoms and suggested steps before you request service.

**Note:** Familiarize yourself with the commercial features described in the TV installation setup. The effects of several of these features, if not thoroughly understood, might appear as faulty operation.

</tbody>
</table>
4. Basic TV connections

4.1 Antenna connection
Connect the antenna or RF cable signal to the 75 Ω RF 'π' connector socket located on the TV.

4.2 Mains connection
Ensure that the mains voltage and frequency are correct. Refer to the product labelling and documentation.

Note: The power button on the TV does not disconnect the television from the AC mains. It toggles the TV between on and stand-by mode. To completely turn off the TV you must unplug the AC mains plugs from the wall socket.

4.3 Switching on the TV
Press on the TV or on one of the optional remote controls to switch the TV set on.
5. Overview of TV connectors and controls

⚠️ Warning:
- Risk of electric shock. The rear jack panel must be removed by qualified personnel only.
- Do not connect any telephone cables or equipment to Data 1.

1. POWER
   To switch the TV on and off. To disconnect from the mains, remove the mains cord from the mains socket at the back of the TV or remove the mains plug from the wall socket.

2. CHANNEL +
   To select a channel.

3. MENU
   To display or close menus.

4. VOLUME +
   To increase or decrease volume.

5. TV Aerial
   To connect to the aerial plug.

6. DATA 1
   For Pay Per View Terminal connection.

7. USB
   To play media, clone and upgrade software.

8. AV 1
   A replacement for the standard audio and video cables - red, white and yellow. To connect to video camera or camcorder.

9. S-Video
   To play video from an external device. The audio is provided by the AV 1 jack.

⚠️ Note: Switching between AV 1 and S-Video does not occur automatically. Set the input to S-Video (see Select an input source on page 17).

10. Component Video Inputs/Audio Inputs
    To connect to a DVD player or decoder which have the same connectors.
11. SPDIF
To connect to a HiFi / Home Theater system.

12. RS 232
To use serial communications to an external device.

Note: Serial Xpress must be selected as the communication source (see Selecting the communication source on page 15).

13. VGA In
For input PC/Lap-top VGA.

14. PC Audio In
To play audio from a PC. Only compatible if also connected to an HDMI or VGA input.

15. HDMI 1/2
To connect to peripheral equipment, including high-definition equipment.

16. 8 Ω
To connect to a bathroom speaker.

17. Service
For diagnostic purposes. Should only be used by qualified Philips personnel.

Note: The following connectors are available on certain sets only.

18. Side USB
See USB.

19. Headphones
To listen to audio via headphones.

20. Side Audio / Video Inputs
To connect to a video camera or camcorder.

21. Side S-Video
To play video from an external device. The audio is provided by the Side Audio / Video Inputs.

Note: Side Audio / Video Inputs and Side S-Video cannot be used at the same time. Do not connect both.
6. Optional remote controls

The following remote controls are applicable to TVs from Philips Commercial Solutions. These remote controls can be used for setup and configuration.

6.1 RC2888/01

Guest Mode Remote Control (optional)

6.2 RC2573GR

RC2573GR is an optional remote control. It is used for Philips Commercial Solutions features and SmartCard settings. It can be purchased separately.

Slide this button up to enter into Guest mode.

or

Slide this button down to enter into Setup mode.
7. Description of guest remote control

1. **Source Select**
   - To toggle between available video sources.

2. **Closed Caption**
   - To activate the Closed Caption function.

3. **Smart Sound**
   - To select the predefined sound settings.

4. **Sleep**
   - To activate the sleep timer. Press the button repeatedly to increase countdown time.

5. **Menu**
   - To call up or exit the menus.

6. **Navigation cursors**
   - To navigate through the menus/submenus.

7. **Volume + / –**
   - To adjust the TV volume.

8. **0 to 9 Digit keys**
   - To select a TV channel. For a two digit number, enter the second digit before the dash disappears.

9. **Alternate Channel**
   - To toggle between the alternate channels.

10. **Channel Guide**
    - To activate the channel guide function.

11. **Standby**
    - To switch the TV on from standby or back to standby.

12. **DVD keys** (if applicable)
    -  • To pause DVD play.
    -  ▶ To start DVD playback.
    -  ■ To pause DVD playback.
    -  ◄ To rewind DVD playback
    -  ► To fast forward DVD playback.

13. **Smart Sound**
    - To select predefined sound settings.

14. **OK**
    - To confirm a selection.

15. **Channel + / –**
    - To select channels.

16. **Mute**
    - To mute or restore sound.

17. **Format**
    - To select TV picture formats.
8. Overview of TV menus

* CARD CVBS, CARD-YC, CARD CVI, SIDE AV, SIDE SVIDEO are available on certain models only.
9. Accessing the setup menu

The following remote control commands apply to Philips Commercial Solutions TV products. These can be used for setup and configuration purposes.

**Accessing TV Setup Menu using the Remote Control (RC2573GR)**

1. Slide the button to the Setup location.

   ![Remote Control Image]

2. Press (on the remote control to access the Setup Menu.

   ![Remote Control Image]

   **To scroll through the menu:**
   - Press ▲ or ▼ on the remote control to highlight a menu item.
   - Press ▶ to modify the setting of the highlighted menu item.
   - Press (to exit the setup menu.
10. Installation

10.1 Selecting the language

You can select **ENGLISH**, **ESPANOL** or **FRANCAIS** as your preferred language.
- Press • repeatedly to select your preferred language.

- To identify a connection link between the TV display and the setup box, select **SP - SPI**, **SP - I2C** or **SERIAL XPRESS**.

- **For SP - SPI** and **SP - I2C**: if the set-top box requires a source switch, select **GENERIC** under **DCM TYPE**.
10.3 Changing the settings of a channel

This feature allows you to change the settings for a particular channel.

Press ► to enter the CHANNEL INSTALL menu.

Select a Channel

- Press 0 - 9 on the remote control to select a channel.
  - For Cable mode, select 01 - 250.
  - For Antenna mode, select 02 - 250.

Note: To input a three digit channel, configure the TV to allow 3-digit channel entry. (see Configuring the control options on page 27)
Select an input source

- TUNER, AV, SVIDEO, CVI, VGA, HDMI1, HDMI2, CARD-CVBS, CARD-YC, CARD CVI, SIDE AV or SIDE SVIDEO

Note: CARD-YC, CARD CVI, CARD-CVBS, SIDE AV and SIDE SVIDEO are available on certain models only.

Selecting Digital Channel Options

- If the current channel you are mapping is a digital or high definition channel, use • • to select YES. Selecting NO removes the DIGITAL CH SCROLL, DIGITAL MAJOR CH and DIGITAL MINOR CH. Since the channel is not digital, these options do not appear in the menu.

Scrolling the Digital Channels

- If YES is selected, press • • to go the previous or next digital channel.

Searching the Digital Major Channels / RF Channel Number

- For DIGITAL MAJOR CH / RF CHANNEL NUMBER, key in the channel number (1 to 999) using 0 - 9.
Searching the Digital Minor Channel / MPEG Program Number

- For **DIGITAL MINOR CH / MPEG PROGRAM NUMBER**, use 0 - 9 to key in the channel number (0 to 999).

- Press ▲ from Channel 0 to select NO.

- If NO is selected, go back to **DIGITAL MAJOR CH. / RF CHANNEL NUMBER** to enter one part channel number.

- Press 0 - 9 to key in the channel number (1 to 16383).

Selecting your Preferred Ring

- There are four groups of rings. Each ring comprises a group of channels.

- Press ▲ ▼ to select preferred ring. A red dash appears beside the selected ring.

- Press ▼ ▼ to confirm selection. An “X” appears beside the ring.

- Press ▼ to save and exit ring mode.

Naming a channel

- You can assign a name to a channel. Press ▲ ▼ to move to the first character slot. A red dash appears.

- Press ▲ ▼ to key in the first character.

- Press ▲ ▼ to move to the next character slot and continue to key in the next character (maximum of 8 characters).

- Press ▼ to save and exit label mode.

Selecting the Mute Source

You can choose to mute the audio or the video.

- Press ▲ ▼ to select NONE, AUDIO or VIDEO.
10.4 Tuning channels automatically

Note: This option is only available when TUNER is selected at the INPUT item of the CHANNEL INSTALL menu.

1. Press ► to enter START mode.

2. Press ► again to start automatic installation of channels.

Note: To interrupt automatic installation of channels, press any button on the remote control.

10.5 Selecting cable or antenna mode

Note: This option is only available when TUNER is selected as the INPUT item in the CHANNEL INSTALL menu.

Select YES to use Cable mode and NO to use Antenna mode.
10.6 Selecting a virtual or physical channel

Note: This option is only available when TUNER is selected at the INPUT item of the CHANNEL INSTALL menu.

The USE CHANNEL TABLE option relates to the use of Virtual channels versus Physical channels.

- Select NO to use a physical channel number. Most Pay-Per-View systems mandate that the TV uses physical channels.

- Select YES for a stand alone system where the channels are tuned and ordered by their virtual channel numbers.

Most HD stations are assigned physical channel numbers that differ from their traditional analog channel numbers. So, the channel you know as channel 2 is actually broadcasting its HD signal on a physical channel unrelated to channel 2, say 19.1. Selecting YES will cause the HD broadcast of channel 2 to appear as channel 2.1.

10.7 Enabling your current ring

A ring is a group of favorite channels.

Four groups of RING are available.

- To enable CURRENT RING, select from RING1 to RING4.

Note: If “SMART RC” is selected under COMMUNICATION source (see Selecting the communication source on page 15), then RING 4 is not available.

10.8 Setting options for digital channels

- Press ▶ to enter the DIGITAL SETUP mode.
Setting up the VCHIP / DIGITAL RATING and FACTORY CH RESET

- Press ▶ to enter the CHANNEL SETUP mode.

- VCHIP / DIGITAL RATING allows you to configure and enable content restrictions on the TV based upon the VCHIP STANDARD (see www.fcc.gov/vchip/ for more information on ratings).

- FACTORY CHANNEL RESET allows you to clear the digital channel map. Note: You need to do an automatic installation after FACTORY CHANNEL RESET is confirmed.
  - Press ▲ ▼ to select the item you want to configure.
  - Press ◄ ► to select option.

Selecting the Digital Audio language

- Digital Audio allows you to select your preferred digital audio language (English, Spanish or French).

- Press ▶ to enter the AUDIO mode.

- Press ▶ to enter the Preferred Language mode and select your preferred language.
Selecting the Digital Closed Caption options

**DIGITAL CLOSED CAPTION SETUP** allows you to select the default Closed Captioning option and also configure the digital text / background properties of digital CC.

Press •Æ to enter the **DIGITAL CC SETUP** menu and select your default Closed Captioning option and also configure the digital text background properties of digital CC.

- Press ▲▼ buttons to select **MEDIUM** or **LOW**.
- Press ◀▶ to select ON or OFF.

Select ON option to enable **EMERGENCY ALERT**.

⚠️ Note: **HIGH EMERGENCY ALERT** cannot be disabled.

Activating the Emergency Alert

Use this option to enable or disable **MEDIUM** to **LOW** alert.

- Press ◀▶ to enter the **EMERGENCY ALERT** menu and select **MEDIUM** or **LOW**.
10.9 Selecting and configuring settings and options

The CONFIGURATION menu allows you to select and configure the settings and options for:
- SWITCH ON / OSD
- PICTURE / SOUND
- SECURITY
- CONTROL
- VIDEO ADJUSTMENTS (only available on certain models)
- FEATURES
- CC / V-CHIP
- AMBILIGHT (only available on certain models)

- Press ▶ to enter the CONFIGURATION menu.

- Press ▲ or ▼ to select the item you want to configure.

Specifying the configuration when switching on TV

The SWITCH ON / OSD menu allows you to select and configure the settings and options for:
- WELCOME MESSAGE
- SWITCH ON CHANNEL
- SWITCH ON VOLUME
- SWITCH ON PICTURE FORMAT
- POWER ON
- VOLUME INDICATOR
- CHANNEL DISPLAY

- Press ▲ or ▼ to select the item you want to configure.
- Press ◀ ▶ or 0 - 9 to make adjustments or select options.
- WELCOME MESSAGE: key in a welcome message.
- SWITCH ON CHANNEL: set a channel which you want the TV to always tune to at startup.

Note: If STANDARD is selected in the SWITCH ON CHANNEL feature, the TV will switch to the last viewed channel upon start-up.

- SWITCH ON VOLUME: specify the volume setting at startup.
- SWITCH ON PIC FMT: select your preferred picture format at startup (AUTO, 4:3, ZOOM 14:9).
• **POWER ON**: Select the status either
  LAST STATUS, ON, STANDBY
  or FORCED ON on the TV when
  switched on. If LAST STATUS is
  selected, the last power status will be
  activated when the TV is switched on.

• If ON is selected, the TV always
  switches on when the mains cord is
  connected. The POWER ( ) buttons
  on the Guest Remote Control and
  the TV are enabled.

• If STANDBY is selected, the TV
  switches to stand-by when the mains
  power is switched on.

• If FORCED ON is selected, the TV
  always switches on when the mains
  power is turned on. The POWER ( ) buttons
  on the Guest Remote Control and
  the TV will be disabled.

• **VOLUME INDICATOR**:
  Display the volume indicator.

• **CHANNEL DISPLAY**:
  Display the programme number, label (if
  any) or both.

Specifying the configurations for TV
PICTURE / SOUND

In the CONFIGURATION menu, the
PICTURE / SOUND feature allows you
to select and configure the settings and
options for:

• BRIGHTNESS
• COLOR
• CONTRAST
• SHARPNESS
• TINT
• ACTIVE CONTROL
• TREBLE
• BASS
• BALANCE
• AVL (Auto Volume Leveler)

• Press ▼ to select PICTURE / SOUND.

• Press ▼ to enter the PICTURE / SOUND menu.

| REMOTE CONTROL LOCK | YES   |
| DECRYPTION CONTROL  | >     |
| VTRACK           | >      |

• Press ▼ to select the item you want to configure.

• If STANDARD is selected in the SECURITY menu, the TV SETUP menu can be accessed by entering a special security code with a guest remote control. Contact the Philips Commercial Solutions Customer Care Center at +1 866 497-4225 should you require further assistance.

• If HIGH is selected, the TV setup menu can be accessed only with a RC2573GR setup remote control in setup mode.

Note: The default security setting is STANDARD. When the security setting is in STANDARD mode, it may be vulnerable to unauthorized operations.

• In the KEYBOARD LOCK option.
  • Select YES to lock the TV keyboard buttons except for the POWER button.
  • Select ALL to lock all the TV keyboard buttons including the POWER button.
  • Select NO to unlock all the TV keyboard buttons.

• Press ▼ to select REMOTE CONTROL LOCK.

Instruction for the decryption control menu will be provided when you receive the Pro:Idiom certificates.
Using V-Track to watermark

**NOTE:** The **VTRACK** menu will not be displayed unless **COMMUNICATION** is set to OFF. **VTRACK** allows you to activate the watermarking functionality of the TV.

- Press ▶ to enter the **VTRACK** menu.

![VTrack Menu]

- Press ▶ to select **YES**, so that watermarking is turned on.

![VTrack Settings]

- The **TIME SETTING** option allows you to manually enter the time.

![Time Setting]

- The **DOWNLOAD CHANNEL** option allows you to select a channel from where the time is retrieved.

![Download Channel]

**Configuring the control options**

The **CONTROL** menu allows you to select and configure the settings and options for:

- **ESP (Energy Saving Programmability)**
- **DIGIT TIMEOUT**
- **3 DIGIT ENTRY**
- **SOURCE MENU ITEM**
- **CHANNEL GUIDE**
- **MIN VOLUME (Minimum volume)**
- **MAX VOLUME (Maximum volume)**

- Press ▶ to enter the **CONTROL** menu.

![Control Settings]

- Press ▲ ◀ to select the item you want to configure.
• The **ESP** (Energy Saving Programmability) option allows you to select a specified period of time (from 1 HR / 2 HR ....... / 99 HR) to power down your TV automatically. If it does not receive any commands during this period from the remote control or the TV keyboard, this energy saving feature will take effect.

**Note:** If a remote or keyboard command is received before the ESP time period expires, the Timer will reset and begin counting down again.

• The **DIGIT TIMEOUT** option allows you to specify a time period (from 1 to 9.9 seconds) for the channel to switch to another channel when you key in the channel number. It is advisable not to specify too short a time period especially when you want to key in 2 or 3 digit channel numbers.

**Note:** The recommended and default setting is 3.0 seconds.

• Select **YES** to enable channel selection of 1 to 250 for cable mode and 2 to 250 for antenna mode. Select **NO** to enable channel selection from 1 to 99 for cable mode and 2 to 99 for antenna mode.

• **SOURCE MENU ITEM** allows you to remove Source from the options menu the guest can see. The guest will not have access to any inputs not mapped to a channel in this case.

• If **YES** is selected, Source will appear in the options menu. If you select **NO**, Source will not appear.
• **PIC FMT MENU ITEM** allows you to remove Picture Format from the options menu the guest can see. The guest will not have access to change the picture formats.

  - If **YES** is selected, Picture Format will appear in the options menu. If you select **NO**, Picture Format will not appear.

</tr>
<tr>
<td>CHANNEL GUIDE</td>
</tr>
<tr>
<td>MIN VOLUME</td>
</tr>
<tr>
<td>MAX VOLUME</td>
</tr>
</tbody>
</table>

• **MIN** and **MAX VOLUME** options allows you to specify the limit setting for Minimum and Maximum Volume.

• The **CHANNEL GUIDE** is an on-screen guide of channels that can be used for displaying the channels programmed into the TV. The guide will only function for channels you have labeled (see Naming a channel on page 18). This feature is useful for showing your guests where channels or inputs are mapped and is usually not used in a PPV system as the PPV system has its own map and guide.

  - In the **CHANNEL GUIDE** option, select **YES** to enable the Channel Guide.

Conﬁguring the features options and settings

- Press ► to enter the FEATURES menu.
Select and configure the settings and options for:

- SMARTPOWER
- SMART SOUND KEY
- DEFAULT HDMI 1 AUDIO
- DEFAULT HDMI 2 AUDIO
- LOW POWER STANDBY
- LOUD SPEAKER MUTE
- USB BREAK-IN
- SW DOWNLOAD

- Press ▲▼ to select the item you want to configure.

- Press ◄► to select options.

- The SMARTPOWER option allows you to put the TV in an energy saving mode which can save up to 30% in energy consumption costs.

- Select from LOW, MEDIUM or HIGH to activate energy saving mode.

- In the SMART SOUND KEY option, select AUDIO SELECT to allow you to configure the Smart Sound button on the Guest remote control to toggle the different audio sources.

- Select SMART SOUND to listen to different SMART SOUND modes.

- DEFAULT HDMI AUDIO 1 and 2 allows you to select the HDMI Audio from different Sources. This feature is particularly useful for connecting DVI sources to this television.
DVI Video can convert easily to HDMI with a simple adaptor, but the audio signal is not present and must then be connected to one of the other inputs on the TV. This feature allows you to match the DVI video to the Audio signal you have connected. The ports are distinguished from each other by 1 and 2.

- By default, the **LOW POWER STANDBY** option is set to **NO**. If an interactive SmartCard is used with the TV, set the **LOW POWER STANDBY** option to **NO**.

- In the **LOUD SPEAKER MUTE** option, select **YES** to mute the TV speakers permanently.

- When inserting a USB device, the channel will be automatically switched to the USB directory using **USB BREAK-IN**. Select **YES** to enable this option.

Software downloading and cloning

The **SW DOWNLOAD** feature allows you to upload and download the TV software and settings via USB or *RF. This includes Cloning.

*Only available on certain models.

- Select **SW DOWNLOAD**.

- Press ▶️ to enter **SW DOWNLOAD** menu.

- In the **SOURCE** option, select either **USB** or **RF**. **USB** is the default option.
USB Source

- Select USB to upload or download from a USB device.
- In the DIRECTION option, select DOWNLOAD to download the software from the USB device. Select UPLOAD to upload the cloning information to the USB device.

In the SW TYPE option, select the type of software or cloning information to be downloaded. The types of software available are:

- **ALL**
- **CLONE DATA**
- **SSB NVM**
- **SSB FIRMWARE** (only download)
- **STANDBY FIRMWARE** (only download)
- **IBOARD NVM**

**Note:** For SSB NVM to be cloned properly this path must be created on the USB drive: `/SSB_NVM/ChannelTable`
If **SSB FIRMWARE** is selected, the digital module software, including MPEG 2 and MPEG 4, is updated from the USB device.

If **STANDBY FIRMWARE** is selected, the startup data is updated from the USB device.

If **IBOARD NVM** is selected, the TV settings are updated from the USB device.

If **IBOARD FIRMWARE** is selected, the iboard software is updated from the USB device.

After all the selections for the **SW DOWNLOAD** have been completed, select **START**.

Press ➤ to start. The TV will start to perform the SW download. Upon successful downloading, the TV will shut down and re-start automatically.

**Note:** It is strongly recommended in the **SW TYPE** to select **ALL**. This ensures all available software upgrades are installed.

**RF Source**

*Only available on certain models.*

If **RF** is selected in the **SOURCE** option, only downloading can be performed.
**Configuring the CC (Closed Caption) / V-CHIP options and settings**

The **CC / V-CHIP** menu allows you to select and configure the settings and options for:

- **SAVE CC**
- **CC**
- **SAVED V-CHIP**
- **V-CHIP MENU ITEM**
- **V-CHIP SETUP**

- The **SAVE CC** option allows the TV to remain in whatever CC mode the last guest selected, rather than returning to the default setting you specify in the next step.

- **OFF** is the default CC mode. As long as **SAVE CC** is set to **NO** the TV will always power up with CC in the mode specified here. The options are **ON**, **OFF**.

---

**In the CABLE TUNING option,** If **YES** is selected, Channels 1 to 135 are available for selection at the RF CHANNEL NUMBER option. If **NO** is selected, only Channels 2 to 69 are available for selection.

**In the SW TYPE option,** select the type of software or cloning information to be downloaded. The types of software available are:

- **ALL**
- **SSB NVM**
- **SSB Firmware** (only download)
- **STANDBY Firmware** (only download)
- **IBOARD NVM**
- **IBOARD Firmware** (only download)

- Press ▲ to start. The TV will start to perform the SW download. Upon successful downloading, the TV will shut down and re-start automatically.

---

**In the SW TYPE option,** select the type of software or cloning information to be downloaded. The types of software available are:

- **ALL**
- **SSB NVM**
- **SSB Firmware** (only download)
- **STANDBY Firmware** (only download)
- **IBOARD NVM**
- **IBOARD Firmware** (only download)

- Press ▲ to start. The TV will start to perform the SW download. Upon successful downloading, the TV will shut down and re-start automatically.
**Note:** CC MODE only appears when CC is ON

- The **DIGITAL CC MODE** option allows you to set your digital CC options from CS1 to CS6. In the **ANALOG CC MODE** option, it allows you to set your analog CC options from CC 1 to CC 4 and TXT 1 to TXT 4.

**Note:** If Digital CC option that was selected is not available in the current digital channel, the TV will switch to Analog CC mode.

- Go to the **SAVED V-CHIP** option and select **YES** to allow the guest to save all the V-CHIP settings.

- In the **V-CHIP MENU ITEM** option, select **YES** to allow the guest to change all the V-CHIP settings.

- In the **V-CHIP SETUP** option, proceed by pressing ➤ to change the V-CHIP settings.
10.10 Change Ambilight settings

Note: This feature is only available for certain models.

This section describes how to adjust your Ambilight settings.

Configure Ambilight

The AMBILIGHT menu allows you to select and configure the settings and options for:

- AMBILIGHT
- BRIGHTNESS
- MODE
- COLOR
- CUSTOM COLOR
- SEPARATION
- COLOR BOOST
- BALANCE

1. Press ▶ to enter the AMBILIGHT menu.

2. Press ▶ to turn ambilight ON.

- The BRIGHTNESS option allows you to change the brightness of the ambilight. Press ◄ ► to make these adjustments.

- In the MODE option, select between COLOR, RELAXED, MODERATE, DYNAMIC.

- If COLOR is selected, a new menu item, COLOR, appears. Choose from COOL WHITE, WARM WHITE, BLUE and
If **CUSTOM** is selected, a new menu item, **CUSTOM COLOR**, appears. Press ▶ to enter the sub menu.

- **The PALETTE option allows you to choose your color.** The **SATURATION** option allows you to select the strength of the color.

- **The SEPARATION option allows you to select the maximum amount of separation between colors.** Select from **LOW**, **MED**, and **HIGH**.

- **The COLOR BOOST option allows you to configure the amount of color boosting to be present.** Choose from **LOW**, **MED**, and **HIGH**.

- **The BALANCE option allows you to change the balance between the left and right ambilight bar.** 0 is the default and recommended option.

- Press ◄ to exit.
11. Appendix A

Support for multiple remote controls

Programming the Multi Remote Controls function

Multi RC function supports up to four TV sets operating in one room without any interference from each other remote controls. Each Guest Remote Control must be programmed individually to one of the four color (Blue, Yellow, Green and Red) buttons on the remote control.

1. Press the  button on the green remote control (RC2573GR) to activate the TV SETUP Menu.

2. Press ▼ to select COMMUNICATION.

3. Press ▶ to enter the COMMUNICATION menu.

4. Press ▶ repeatedly until MULTI RC is selected.

5. Press ▼ to select REMOTE CONTROL.

6. Press ▶ repeatedly to toggle through the four colors and select your preferred color.

7. Press ▲ to select STORE and press ▶ to store your selection. Press  to exit menu.

8. Using the Guest Remote Control, press MENU and any color key simultaneously to set the remote control to the corresponding color that you have selected in the REMOTE CONTROL option. If BLUE is selected on the REMOTE CONTROL option, correspondingly, you must select BLUE on the Guest Remote Control.

You can now use the Guest Remote Control to operate the TV set.

9. To check whether you have programmed the MULTI RC function correctly, aim the Guest Remote Control at the TV and press OK for five seconds.

Information of the Remote Battery, Remote Color and the TV Color are shown on the screen. If the Remote Color and the TV Color do not match, you need to re-programme and ensure they match to enable the Guest Remote Control to operate the TV.
## 12. Definitions, acronyms and abbreviations

<table>
<thead>
<tr>
<th>Abbreviation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AVV</td>
<td>Audio / video.</td>
</tr>
<tr>
<td>Bit Rate</td>
<td>Sometimes written &quot;bitrate&quot;, the frequency at which bits are passing a given (physical or metaphorical) &quot;point&quot;, quantified in terms of bits per second (bit/s).</td>
</tr>
<tr>
<td>CVI</td>
<td>Component video input. Sometimes used interchangeably with &quot;YPbPr&quot;.</td>
</tr>
<tr>
<td>CVBS</td>
<td>Composite Video Broadcast Standard. Video signal containing combined color, luminance, and synchronization signals. Also often referred to as &quot;AUX&quot; video.</td>
</tr>
<tr>
<td>DB-9</td>
<td>Standardized 9-pin connector; typically used for RS-232 asynchronous serial communications.</td>
</tr>
<tr>
<td>DB-15</td>
<td>Standardized 15-pin connector; typically used for VGA / computer display signals.</td>
</tr>
<tr>
<td>DCM</td>
<td>Data Communications Module. PCS terminology for devices that communicate with Philips Commercial Solutions products by means of the Philips SmartPort protocol.</td>
</tr>
<tr>
<td>DFU</td>
<td>Directions For Use. Philips Consumer Electronics term for product instruction documentation.</td>
</tr>
<tr>
<td>DHCP</td>
<td>Dynamic Host Configuration Protocol. A protocol used on TCP/IP networks. Allows client configuration (TCP/IP address, default gateway, DNS configuration, etc.) to be sent to clients.</td>
</tr>
<tr>
<td>DNS</td>
<td>The network service used in TCP/IP networks that translates host names to IP addresses.</td>
</tr>
<tr>
<td>DVI</td>
<td>Digital Visual Interface, a digital interface standard created by the Digital Display Working Group (DDWG) to convert analog signals into digital signals to accommodate both analog and digital monitors.</td>
</tr>
<tr>
<td>HTML</td>
<td>Hypertext Markup Language. The set of markup symbols or codes inserted in a file intended for display on a World Wide Web browser page.</td>
</tr>
<tr>
<td>IR</td>
<td>Infrared, long-wavelength light energy invisible to the human eye. In this context as applied to wireless remote controls.</td>
</tr>
<tr>
<td>MP3</td>
<td>A compressed digital audio format. MPEG (Motion Pictures Experts Group) Layer 3 Audio compression.</td>
</tr>
<tr>
<td>NVM</td>
<td>Non-Volatile Memory.</td>
</tr>
<tr>
<td>NA</td>
<td>Not available, not applicable.</td>
</tr>
<tr>
<td>NC</td>
<td>Not connected, no connection.</td>
</tr>
<tr>
<td>Off</td>
<td>See &quot;Stand-by&quot;.</td>
</tr>
<tr>
<td><strong>On</strong></td>
<td>A state of operation in which the unit (television) is connected to an AC power source, in active use, and capable of responding to queries or commands from a control device (IR remote control) and/or DCM.</td>
</tr>
<tr>
<td>-------------</td>
<td>----------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>OSD</strong></td>
<td>On-Screen Display. The display of alphanumeric text that appears over the video image. Typically generated by a character generator usually integrated into the television chassis control processor.</td>
</tr>
<tr>
<td><strong>Plug</strong></td>
<td>Connector on a cable that connects to a plug.</td>
</tr>
<tr>
<td><strong>PPV</strong></td>
<td>Pay Per View.</td>
</tr>
<tr>
<td><strong>RC</strong></td>
<td>Remote control.</td>
</tr>
<tr>
<td><strong>RC-5, RC-6</strong></td>
<td>Philips IR remote control communication protocol.</td>
</tr>
<tr>
<td><strong>RJ-12</strong></td>
<td>Registered jack 12. Modular telephone-style connector form factor with 6 electrical conductors.</td>
</tr>
<tr>
<td><strong>Router</strong></td>
<td>Technically, also known as a Layer 2 Switch. A switching hub that operates at the Data Link Layer (Layer 2), and builds a table of the MAC addresses of all the connected stations.</td>
</tr>
<tr>
<td><strong>RTSP</strong></td>
<td>Real-Time Streaming Protocol. Allows control of multimedia streams delivered, for example, via RTP (RFC 3389, Real-time Transport Protocol Payload). Control includes absolute positioning within the media stream, recording and possibly device control.</td>
</tr>
<tr>
<td><strong>RTP</strong></td>
<td>Real-time Transport Protocol. Defines a standardized packet format for delivering audio and video over the Internet.</td>
</tr>
<tr>
<td><strong>Setup Mode</strong></td>
<td>Remote control mode used to configure Philips Institutional Televisions for specialized and/or restricted features such as front panel lockout, volume range, channel list, etc.</td>
</tr>
<tr>
<td><strong>SmartPort™</strong></td>
<td>Philips proprietary three-wire synchronous serial communications and control interface.</td>
</tr>
<tr>
<td><strong>SmartPlug™</strong></td>
<td>See SmartPort.</td>
</tr>
<tr>
<td><strong>Socket</strong></td>
<td>Connector on a cable that connects to socket.</td>
</tr>
<tr>
<td><strong>SBB</strong></td>
<td>Set-back box. Used interchangeably with “set-top box”. General term for a device that adds functionality to, and/or interfaces a television with, a host content- and/or control- environment.</td>
</tr>
<tr>
<td><strong>STB</strong></td>
<td>Set-top box. See SBB.</td>
</tr>
<tr>
<td><strong>Stand by</strong></td>
<td>Generally referred to as “off”. A state of operation, characterized by relatively low power consumption, in which the unit (television) is connected to an AC power source, but not in active use, and capable of responding to queries or commands from a control device and/or DCM.</td>
</tr>
<tr>
<td><strong>System 0</strong></td>
<td>First data word of a Philips RC-5 / RC-6 remote control code for standard television commands. Synonymous with Philips Commercial Solutions “guest” mode.</td>
</tr>
<tr>
<td><strong>UDP</strong></td>
<td>User Datagram Protocol. A minimal message-oriented transport layer protocol that is currently documented in IETF RFC 768. Used by Philips NetLink to issue device discovery packets.</td>
</tr>
<tr>
<td><strong>YPbPr</strong></td>
<td>Component video signals consisting of luminance, and blue and red components.</td>
</tr>

13. USA limited warranty

Thank you for purchasing this PHILIPS branded Commercial Television.

All Philips branded commercial televisions are designed and manufactured to high standards and deliver high-quality performance. Within the first year of purchase, this two-year Limited Warranty may entitle you to receive an “Advance Exchange” model on-site within 72 hours of qualification. Within the second year of purchase, this two-year Limited Warranty may entitle you to receive an “Advance Exchange” model on-site delivered via Ground Transportation.

Philips’ Commercial Television
For more information on this and more great Philips products visit our web site at:

HTTP://WWW.PHILIPS.COM/HOSPITALITY

Philips F1rst Choice Limited Warranty
One Year 72 hour Advance Exchange® / Two Years Advance Exchange®

WHO IS COVERED?
The original purchaser for end use. You must have a sales receipt or other document showing that you purchased the Product. Please retain and store your Proof of Purchase securely.

WHAT IS COVERED?
Defects in materials and workmanship if a valid claim is received by Philips within the Warranty Period. When the warranty on the purchased product expires, the warranty on all exchanged products (including their parts and service labor) also expires.

WHAT IS THE PERIOD OF COVERAGE?
Two (2) years. For two (2) years from the date of purchase, as evidenced by your proof of purchase, Philips will provide an “Advance Exchange” subject to the terms and conditions herein.
WHAT WE WILL DO TO CORRECT PROBLEMS?

*For the first year, the defective Product will be exchanged with a new Product (or one that has been renewed to original specifications) and delivered within seventy-two hours of qualification. During the second year, the defective product will be exchanged with one that has been renewed to original specifications and delivered via Ground Transportation. In the event of a failure of multiple units at the same location, Philips reserves the right at its sole discretion to send personnel to the location to determine the cause of the failure and determine the most efficient means of resolving the failure.

WHAT IS EXCLUDED?

• unless otherwise provided for herein, shipping charges to return defective products to Philips.

• unless shipped by Philips, damage to or loss of product during shipment.

• labor charges for installation or setup of the product, adjustment of customer controls on the product, and installation or repair of antenna systems outside of the product.

• product repair and/or part replacement because of accident, misuse, unauthorized repair or other cause not within the control of Philips.

• reception problems caused by signal conditions or PPV, cable, or antenna systems outside the unit. o modifications or adaptations to enable a product to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by such modifications or adaptations.

• modifications or adaptations to enable a product to operate with any PPV system other than the PPV systems for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by such modifications.

• CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES RESULTING FROM THE PRODUCT, INCLUDING BUT NOT LIMITED TO DAMAGES FOR LOST DATA, LOST SOFTWARE, OR LOSS OF USE OF THE PRODUCT. (Some states do not allow the exclusion of such damages, so the above exclusion may not apply to you. This provision also excludes such damages for prerecorded material, whether copyrighted or not copyrighted, among all other potential claims.)

• products on which the model, production or serial number has been altered, deleted, removed or made illegible.

• product sold AS IS or Renewed.
HOW TO GET WARRANTY SERVICE IN U.S.A., PUERTO RICO OR U.S. VIRGIN ISLANDS? OR WHERE CAN I GET MORE INFORMATION?

Before requesting service, please check your owner’s manual as adjustments of the controls discussed there may save you a service call. Also, please prepare the following details so we can solve your problem quickly.

- Philips type number
- Philips serial number
- Purchase date (copy of receipt of purchase may be required)
- Pay Per View Provider (if any)
- High Definition signals offered at property (if any)
- Your proof of purchase indicating: date of purchase, dealer name, model and product serial number.
- The full address to which the swap model should be delivered.

Then, contact Philips Commercial Solutions Customer Care Center at: (866) 497-4225

(IN U.S.A., PUERTO RICO AND U.S. VIRGIN ISLANDS, ALL IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE DURATION OF THIS EXPRESS WARRANTY. But, because some states do not allow limitations on how long an implied warranty may last, this limitation may not apply to you.)

This Limited Warranty gives you specific legal rights. You may have other rights which vary from state to state.

WARRANTY SERVICE IN CANADA: While this warranty statement is not valid for Canadian purchases, you may be eligible for warranty service. Please contact Philips Canada at: (888) 292-3430

44
Just a phone call away

Philips’ customer help desks are located worldwide. Within the U.S. you can contact Philips Customer Care Monday-Friday from 8:00 AM-9:00 PM Eastern Time (ET) and on Saturdays from 10:00 AM-5:00 PM ET by using the USA contact phone number listed above.

- To avoid possible shock hazard, please be sure that the television is unplugged from the electrical outlet before cleaning.
- Do not touch the screen with anything hard as this scratch, mark or damage the screen permanently.
- Do not rub with dust clothes with chemical treatment.
- Do not touch the surface with bare hands or greasy cloth (some cosmetics are detrimental to the screen).
- Unplug the TV before cleaning the screen.
- When the surface becomes dusty, wipe gently with absorbent cotton or other soft materials like chamois soaks. Do not use acetone, toluene and alcohol cleaners because they cause chemical damage.
- Do not use liquid or aerosol cleaners.
- Wipe off saliva or water droplets as soon as possible. Long time contact with the screen causes deformations and color fading.
- This Philips Institutional Television product and its packaging contain materials that can be recycled and re-used. Specialized companies can recycle your product to increase the amount of reusable materials and minimize the amounts which need to be properly disposed.
- This product might also use batteries which should not be thrown away when depleted, but should be handed in and disposed of as small chemical waste.
- Please find out about the local regulations regarding the disposal of the television, batteries, and packaging materials whenever you replace existing equipment.
- This product consumes energy in the stand-by mode. Energy consumption contributes to air and water pollution. It is advisable to switch off your television overnight instead of leaving it in stand-by mode.
14. **Cleaning and care**

- Do not touch the screen with anything hard as this may scratch, mark or damage the screen permanently.
- Do not rub with dust clothes containing chemical treatment.
- Do not touch the surface with bare hands or a greasy cloth (some cosmetics are harmful to the screen).
- Unplug the TV before cleaning the screen.
- When the surface becomes dusty, wipe gently with absorbent cotton or other soft materials like chamois soaks. Do not use acetone, toluene and alcohol cleaners because they cause chemical damage.
- Do not use liquid or aerosol cleaners.
- Wipe off saliva or water droplets as soon as possible. Long time contact with the screen causes deformations and color fading.

15. **Environmental care**

- This Philips Institutional Television product and its packaging contain materials that can be recycled and re-used. Specialized companies can recycle your product to increase the amount of reusable materials and minimize the amounts which need to be properly disposed.
- This product might also use batteries which should not be thrown away when depleted, but should be handed in and disposed of as small chemical waste.
- Please find out about the local regulations regarding the disposal of the television, batteries, and packaging materials whenever you replace existing equipment.
- This product consumes energy in the stand-by mode. Energy consumption contributes to air and water pollution. It is advisable to switch off your television overnight instead of leaving it in stand-by mode.

17. Dolby Digital

Manufactured under license from Dolby Laboratories. 'Dolby' and the double-D symbol are trademarks of Dolby Laboratories.

18. Kensington Security Slot

(if present)

Your TV is equipped with a Kensington Security Slot, to prevent it from getting stolen. An anti-theft Kensington lock has to be purchased separately. The Kensington lock is a plastic-coated steel cable with a lock. One end has to be fixed to the opening of the TV and locked with a special key. The other end is attached to a fixed point.

® Kensington and MicroSaver are registered US trademarks of ACCO World Corporation with issued registrations and pending applications in other countries throughout the world. All other registered and unregistered trademarks are the property of their respective owners.
