- 7 different glasses to match your mood and home decor

Advanced LED light

- High Power LED
- High light quality with strong light output
- Warm white light effect
- Adjustable light intensity with dimmer switch

Special characteristics

- On/off switch on article

Sustainable light solutions

- Extremely long operating life
- Energy saving

PHILIPS

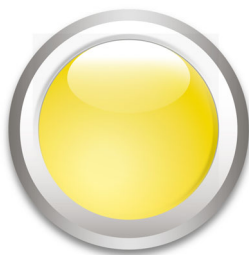

Highlights

High Power LED

The LED module of this lamp is a uniquely developed solution by Philips, combining 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

Warm white light effect

Light up your home with warm white light effects thanks to the latest LED innovation. Philips introduces the latest generation of high-power LEDs, providing a warm white light reaching a colour temperature of 2700 Kelvin. This innovation brings the Philips lighting fixtures to the next level, allowing you to combine elegance and ambience creation with light and energy efficiency.

High light quality

An LED lighting module of 7.5 W produces the equivalent light output as a 40 W incandescent lamp (350 Lumen). Save energy with strong light output.

A light with a twist

There is always a right moment to change your home decor. With StyleTwist you can choose from various sets of glass to change the look of your luminaire in an instant.

Easily switch styles

Changing styles is easy: just slide the glass panels in and out the frame of the wall light without using any tools. Easily twist your style in the blink of an eye.

7 different styles

The innovative design of StyleTwist matches any home interior. Choose from 7 different sets of glass: from red to white, black to pebble

pattern. Let your imagination and your mood be your guide. Glass panels not included but available separately.

Dimmable

Adjust the light intensity of the Philips LED lights with a dimmer switch (not included). This makes this light ideal for creating an ambience for any occasion, whether a cosy meal à deux or chilling out with family and friends in your living room. Philips tested a number of wall dimmers that have proved to be compliant with our LED lights. A list of compatible dimmers is available in the downloads and support section.

Energy saving

This Philips light conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Specifications

Design and finishing

- Material: glass
- Colour: aluminium

Extra feature/accessory incl.

- Dimmable
- LED integrated
- Pull relief

Product dimensions and weight

- Height: 7.5 cm
- Length: 23.8 cm
- Width: 8.0 cm
- Net weight: 1.160 kg

Technical specifications

- Mains power: Range 220 V–240 V, 50-60 Hz
- Bulb technology: LED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 6.5 W
- Light colour: 2700K warm white
- Lamp lifetime up to: 20,000 hrs
- Beam angle: 85°

- Total lumen output fixture: 210 lm
- Fixture dimmable
- LED
- Built-in LED
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: I - earthed
- Light source equivalent to traditional bulb of: 42 W

Service

- Warranty: 2 year(s)

Packaging dimensions and weight

- Height: 25.7 cm
- Length: 9.9 cm
- Width: 8.8 cm
- Weight: 1.280 kg

Miscellaneous

- Especially designed for: Living Room and Bedroom, Kitchen
- Style: Expressive
- Type: Wall light

Issue date 2015-06-23

Version: 3.0.1
