Ultra Slim 4K UHD LED Android TV with Ambilight 3-sided

Dive into your favourite content with the Philips 8300 TV. Experience vibrant, lifelike colour and a sharp 4K UHD picture, even when you’re facing the TV at an angle. Make movie and game nights feel more immersive with Ambilight.

**Refined design. Beautiful light.**
- Ultra-slim minimalist frame with brushed aluminium finish
- Ambilight. Take the emotion beyond the screen.

**Incredible moments.**
- Philips P5 Engine. Whatever the source, always perfection.
- HDR Premium. Enhanced colour, depth, and dimension

**Android TV—all the content you love**
- Google Assistant built-in. Content and more at your command
- Google Play store and Philips app gallery. More to love.

**Crisp audio**
- Philips Triple Ring technology. More space for sound
- DTS HD Premium Sound. Deep bass and crystal-clear dialogue
Ultra Slim 4K UHD LED Android TV
123 cm (49") Ambilight TV 2800 Picture Performance Index, HDR premium WCG 90%, P5 Perfect Picture Engine

Highlights

Ultra-slim minimalist frame
Ultra-slim minimalist frame with brushed aluminium finish

IPS Nano color
From movie night to the big match or gaming, IPS Nano Color technology delivers vibrant colour and a wide viewing angle. Uniform, nanometre-sized particles absorb any excess light created by the screen. Reds stay red, green grass looks green, and blue is always blue. Even if you’re facing the TV at an angle of up to 60 degrees.

P5 Perfect Picture Engine
The Philips P5 Perfect Picture Engine delivers an image as brilliant as the content you love. Details have noticeably more depth. Colours are vivid, while skin tones look natural. Contrast is so crisp you’ll feel every detail. And motion is so smooth that you’ll never lose sight of the ball, no matter how fast the play.

Google Assistant built-in
Control your Philips Android TV with your voice. Want to play a game, watch Netflix, or find content and apps in the Google Play store? Just tell your TV. You can even command all Google Assistant-compatible smart home devices-like dimming the lights and setting the thermostat on movie night. Without leaving the sofa.

TV Content
Go beyond traditional TV programming with Google Play Store and Philips App Gallery. Experience endless movies, TV, music, apps and games online. More to love.

Triple Ring technology
With enhanced Philips Triple Ring technology, we have an even more powerful speaker movement in our subwoofers. More movement means more punch-so you will enjoy powerful sound even in our thin Philips TV design.

Ambilight 3-sided
With Philips Ambilight, movies and games feel more immersive. Music gets a light show. And your screen will feel bigger than it is. Intelligent LEDs around the edges of the TV cast on-screen colours onto the walls, and into the room, in real time. You get perfectly tuned ambient lighting. And one more reason to love your TV.

Wide Color Gamut
Wide Color Gamut increases the standard color gamut of 72% to 90%–99%, resulting in more vivid and brilliant colors. The greenest green, the bluest blue and the reddest red, the expanded color reproduction abilities of a 4K Ultra HD TV closer than ever to what we see in a digital cinema.
