Every night a premiere

with the 21:9 movie format and Ambilight

Be blown away by movies the way they're meant to be seen. The ultrawide TV with Perfect Pixel HD engine and LED Pro matches perfectly the 21:9 movie format and comes to life with immersive Ambilight and 3D. Make every night a premiere.

Advanced hotel features and future proof

- LED Pro for extreme contrast and brilliance
- Integrated Connectivity Panel
- Programmable Switch On Channel

Differentiating guest experience

- Cinema 21:9 movie aspect ratio, no black bars bottom and top
- Full HD 3D TV for a truly immersive 3D movie experience
- Volume limitation
- One combined channel list for Analog and Digital channels

Sustainable and safe

- Low power consumption
- Eco-friendly design & flame retardant housing

PHILIPS

Highlights

LED Pro

Enjoy breathtaking pictures and use up to 50% less energy with Philips award winning LED Pro! Over 1000 LED's are operated selectively in a grid as a backlight for the display. They generate brilliant light in bright image areas, and are dimmed completely in dark areas, saving energy. Combined with the powerful Perfect Pixel HD Engine, the result is a stunning picture with extreme contrast, sharpness and vibrant color. With LED Pro black is black and white is bright.

21:9 movie aspect ratio

Most TVs have an aspect ratio of 16:9 (or 1.78:1) and a resolution of 1080p Full HD. Hollywood blockbusters, though, are usually filmed in 2.39:1 aspect ratio. With Philips new Cinema 21:9 TVs perfectly match the original movie format used by directors with a 21:9 (2.39:1) aspect ratio. So no matter which movie, you can now watch it in its original aspect ratio and without the black bars.

Full HD 3D TV

Be enthralled by 3D movies in your own living room with world's first cinema proportion 3D TV. Active 3D uses the latest generation high speed display for real life depth and realism in Full HD resolution. Premium 3D movie releases on Blu-ray and 3D broadcast TV offers an increasingly wide selection of high quality content. Your TV is ready for the Full HD 3D experience simply by purchasing as

many 3D glasses as you wish (extension kit PTA03).

Integrated Connectivity Panel

The Integrated Connectivity Panel allows your guests to seamlessly connect their personal devices to your TV without the need of any external Connectivity Panel.

Programmable Switch On Channel

Perfect for in-house advertising or information channels as it allows to show a predefined channel when the TV is turned on.

Eco-friendly design

Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimizing overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability. Philips TVs also have a special housing of flame retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to the fire.

Specifications

Picture/Display

- Aspect ratio: Widescreen
- Panel resolution: 1920x1080p
- Picture enhancement: Active Control + Light sensor, 2D/3D noise reduction, Perfect Pixel HD Engine
- Screen enhancement: Anti-Reflection coated screen
- Viewing angle: 176° (H) / 176° (V)
- Color cabinet: Black Brushed aluminium
- Peak Luminance ratio: 65 %

Tuner/Reception/Transmission

- Aerial Input: 75 ohm coaxial (IEC75), 75 ohm F-type
- Video Playback: PAL, SECAM, NTSC
- Digital TV: MHEG, DVB Terrestrial*, DVB-C MPEG4, DVB-T MPEG4

Sound

- Sound Enhancement: Auto Volume Leveller, Dynamic Bass Enhancement, Incredible Surround, Treble and Bass Control
