Software History

NOTE: Each release contains all solutions identified in the earlier version.

TPM186L_038.003.098.001 (Date published: 2021-01-14)
- More solution to horizontal line issues.
- Static IP Network connection issue.
- Wireless mesh network connection issue.
- DP client software v7.0.2 update

TPM186L_038.003.094.001 (Date published: 2020-05-19)
- Home menu missing/hang up/reboot issue
- Horizontal line issues after switching from Netflix back to DTV channel.
- Netflix interactive video playback no audio issue.
- Add Headphone detection setting in Sound menu.

Note : Default setting for Headphone detection is "OFF" which means there is no auto headphone detection. TV sound can be heard in both the TV speaker and headphone when it is connected to TV headphone jack, each with his own volume control. Headphone volume can be adjusted via the sound menu while TV speaker's volume can be adjusted using the VoL+/Vol- buttons in the TV remote control.

TPM186L_038.003.079.001 (Date published: 2020-01-14)
- Incorrect input lag in game picture style after TV wakes up from standby.
- Program locked before set up of child lock pin code.
- Fast forward and rewind keys on remote control not working when playing App's video.
- Improvement on smart TV connection.
- Improvement on Netflix error TVQ-PM-100 issue.

TPM186L_038.003.074.001 (Date published: 2019-10-28)
- Netflix error TVQ-PM-100 issue
- Youtube live streaming video playback issue.
- Horizontal lines in DTV change due to abnormal Netflix exit issue.
- Home menu navigation issue after adjusting volume in channel with Ginga application.
- Error data handling and recovery.

Note: After software upgrade, if you still see the Netflix error message, do the following:
1)   Press setup key on RC, select "General Settings" -> "Reinstall TV".
2)   After the completion of the TV installation, remove the AC power to TV set, wait for 1 to 2 minutes and re-apply the AC power to TV set.

TPM186L_038.003.067.001 (Date published: 2019-06-6)
- Not able to change channel (with specific condition).
- Start Netflix with only black screen (without Netflix logo).
- Delta volume setting not stored.
- Picture style settings not applied after waking up the set from standby mode

TPM186L_038.003.063.001 (Date published: 2019-05-13)
