

# PHILIPS

## Air Purifier

### 1000i Series

Purifies rooms up to 63 m<sup>2</sup>

270 m<sup>3</sup>/h clean air rate (CADR)

HEPA & Active Carbon filter

Connected with CleanHome+ app

AC1214/60

## Purifies the air in less than 11 mins (1) 99.9% virus, allergen & pollutant removal (2,3,4)

With just one push of a button, the air purifier filters the invisible viruses, allergens or pollutants in your home, to keep it clean and safe. It purifies quickly and effectively, thanks to its clean air delivery rate (CADR) of 270 m<sup>3</sup>/h.

#### Superior performance

- Fast purification suitable for rooms of up to 63 m<sup>2</sup>
- HEPA filter captures 99.97% of particles of 0.003 microns
- Removes up to 99.9% of viruses and aerosols from the air
- Smart sensors for intelligent purification
- Thoroughly tested for quality you can trust

#### Seamless operation

- Sleep mode with ultra-quiet operation
- Smart light control
- Low energy consumption

#### Effortless control

- Air quality display
- Track and control with the app
- Auto mode and 5x manual speed levels
- Smart filter indicator

# Highlights

## High performance

Powerful airflow circulation effectively covers rooms up to 63 m<sup>2</sup> and distributes clean air in every corner of the room. This boosts performance to 270 m<sup>3</sup>/hr CADR (Clean Air Delivery Rate). It cleans 20 m<sup>2</sup> in less than 11 min. (1)

## 99.97% particle removal

3-layer filtration with NanoProtect HEPA, Active Carbon and pre-filter captures 99.97% of ultra-fine particles as small as 0.003 microns (4), so you are safe from PM2.5, bacteria, pollen, dust, pet dander and other pollutants. Certified by the European Centre for Allergy Research Foundation.

## Up to 99.9% virus removal

Captures aerosols including those which may contain respiratory viruses. Tested independently by airmid health-group to remove up to 99.9% of viruses and aerosols from the air (3). Also tested for coronavirus (5).

## Intelligent sensors

Scans the air 1000x a second to detect ultra fine-particles. Reports the air quality in real time, and intelligently chooses the right speed for your home (in auto mode).

## Quality you can trust

Philips purifiers go through 170 mandatory and strict inspection tests before being released from the factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7.

## Ultra-quiet operation

In Sleep mode, display lights are dimmed, and the purifier operates in near silence for clean air while you sleep.

## Smart light control

Both the air quality index and the light on the UI can be dimmed and/or turned off to avoid light disturbance.

## Low energy consumption

Thanks to its energy-efficient design, the air purifier runs at max. 30 W power. This is equivalent to a standard light bulb.

## Air quality display

See the real-time air quality in your home at a glance. The display shows the level of pollutants in numerical form, as well as with an intuitive colour ring.

# Specifications

## Performance

CADR (Particle, GB/T): 270 m<sup>3</sup>/hr

Room size (NRCC): Up to 63 m<sup>2</sup>

Air quality sensor(s): PM2.5 particle

Filtration: HEPA, Active Carbon, Prefilter

Particle filtration: 99.97% at 0.003 microns

Allergens filtration: 99.99%

Virus & aerosol filtration: 99.9%

## Usability

Min. sound level (Sleep mode): 32 dB

Max. sound level (Turbo mode): 62 dB

Automatic mode

Sleep mode

Manual speed settings: 5 (Sleep, Speed 1, 2, 3, Turbo)

Air quality feedback: Colour ring, numeral feedback

Auto-ambient light

Cord length: 1.8 m

## Energy efficiency

Max. power consumption: 30 W

Stand-by power consumption: < 2 W

Voltage: 220-240 V

## Connectivity

App, connects via Wi-Fi: Clean Home+

Smartphone compatibility: iPhone and

Android devices

Voice control: Alexa, Google Home (7)

## Weight and dimensions

Weight: 5.3 kg

Dimensions (L\*W\*H): 325 \*210 \* 543

Colour(s): White

## Maintenance

Replacement filter HEPA: HEPA filter FY1410 - 24 mos

Replacement filter, AC: AC filter FY1413 - 12 mos

Service: 2-year worldwide guarantee

\* (1) From the air that passes through the filter, it is a theoretical time for one-time cleaning calculated by dividing its CADR 190 m<sup>3</sup>/h by the room size of 49 m<sup>3</sup> (assuming the room is 20 m<sup>2</sup> in floor area and 2.4 m in height).

\* (2) Tested on the filter media for 1-pass efficiency at 5.33 cm/s air flow, by a third party lab. / From the air that passes through the filter, tested to JISB 9908-2011

\* (3) Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5-m<sup>3</sup> test chamber contaminated with airborne influenza A(H1N1).

\* An air purifier by itself does not protect against Covid-19, but can be part of a plan to protect yourself and your family (US Environmental Protection Agency)

\* (4) From the air that passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

\* (5) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.

\* (6) The recommended service life for the device is based on a theoretical calculation of the average annual regional values of harmful air particles outdoors and daily use of the air purifier for 16 hours in automatic mode.

\* (7) Alexa and Google Home availability depends on your location
