- Packaging dimensions (WxDxH): 387 x 161 x 143 mm
- Product weight: 1.3 kg
- Weight incl. Packaging: 1.65 kg

Power

- Power supply: 100 - 240 V AC, 50/60 Hz
- Battery type: AA size (LR6)
- Number of batteries: 4
- Battery life time: 8 hr

AD315/05

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

Play and charge via Lightning

Enjoy your favourite music while charging your iPod/iPhone via the new Lightning connector! Just dock it directly on the speaker to play your hand-picked tunes in superb sound. It also charges your device quickly while it's playing, so you don't have to worry about the battery running out.

Audio-in

The Audio-in connectivity allows direct playback of Audio-in content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.
