Dimensions

- Gross weight: 0.55 kg
- Packaging depth: 80 mm
- Packaging height: 140 mm
- Packaging width: 288 mm
- Weight: 0.4 kg
- Main unit depth: 43 mm
- Main unit height: 105 mm
- Main unit width: 169 mm

Power

- Battery type: AAA size (LR3)
- Battery voltage: 1.5 V
- Number of batteries: 4
- Power type: AC Input

Highlights

Display weather forecast

Display weather forecast with graphical animations

Multi-color light indicator

This cool multi-color weather indicator lights up in a range of colors depending on the weather conditions. From orange on sunny days, blue on cloudy days to purple on rainy days, you can tell what the weather is like even if you are a distance away from the clock radio.

Gentle wake

Start your day right by waking up gently to a gradually escalating alarm volume. Normal alarm sounds with a preset volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favorite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Digital tuning with presets

Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.
