- Packaging dimensions (W x H x D): 235 x 167 x 19.5 mm
- Weight: 1.56 kg
- Weight incl. Packaging: 1.9 kg

Power

- Mains power

Highlights

CD playback and wake-up track

Wake up to your favorite CD music. Simply place your desired CD in the CD player of your Philips audio system and set the alarm to wake you with CD music. When the wake up time is reached, your Philips audio system will automatically begin playing that CD.

AM/ FM tuner

AM/ FM tuner for radio enjoyment

Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Dual alarm time

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other to wake up your partner.

Self powered back-up
