CD player (play, pause, stop, search)

Compact Disc technology that combines superb digital sound quality with the convenience of standard CD functions.

Dual alarm

Two alarms that can be set independently with the choice of waking up to your favorite music from the CD player, radio station, or from the buzzer.

Wake to favorite CD track

Wake up to CD player, radio or melody

Weekendsleeper

Ensures that either one or both alarm functions are switched off during weekends.

Gentle wake

When you wake up with the beeper, radio or CD alarm, the volume will increase gradually which ensures you will have a gentle and certain wake. The minimum and maximum alarm volume can be set to your requirements.

Self-powered back-up

The clock has a self-powered back-up of three minutes, so if you change the batteries, the clock will hold the current time and the alarm settings.

Quartz controlled clock

Quartz operated clock which ensures the time stays correct.

24 hour alarm reset

Automatically resets the alarm for the same time on the next day, so you don't have to keep manually resetting the alarm.

LCD with brightness control

Enables you to control the brightness of the display for personal preference.
