

Philips Clock Radio

Dual USB port for charging

FM, Analog tuning

Dual alarm

Time and alarm backup

AJ4000B

Charge your mobile while sleeping

with built-in micro USB cable

Start your day recharged with this clock radio. It charges your mobile phone and USB device at the same time, so you never run out of juice. The alarm can be set to go off with radio or a buzzer, while dual alarm gives you two wake up times

Convenient bedside battery charger

- Charge your mobile phone via built-in micro USB cable
- Charge a second USB device via built-in USB hub

Start the day your way

- Wake up to your favourite radio tune or a buzzer
- Gentle wake for a pleasant waking experience
- Repeat alarm for additional snooze
- FM tuner for radio enjoyment

Easy to use

- Dual alarm to wake you and your partner at different times
- Sleep timer helps you to drop off to your favourite music
- Battery back-up ensures memory of time during power failure

PHILIPS

Highlights

Wake up to the radio or a buzzer

Wake up to sounds from your favourite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

Sleep timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 1 hour) and choose a radio station to listen to while you drift off to sleep. The Philips radio set will continue to play for the selected duration and then automatically switch to a power-efficient and silent stand-by mode. Sleep Timer lets you fall asleep to your favourite radio DJ without counting sheep or worrying about wasting power

Battery back-up

Battery back-up ensures memory of time during power failure

FM tuner

The built-in FM tuner lets you enjoy your favourite songs or news from your radio station every day. Simply tune into the station that you want to listen to.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Specifications

Clock

- Type: Digital
- Display: LED
- Display digits: 4
- Time format: 24 H

Alarm

- No. of alarms: 2
- Alarm source: Buzzer, FM radio
- Snooze (repeat alarm): Yes, 9 mins
