Rise and shine

with clear and crackle-free DAB radio

Get your day going with crackle-free DAB radio. This Philips Clock radio has an elegant mirror-finish display and wakes you up to your favourite radio station. It even lets you preset two alarm times to wake up at different times.

Enjoy digital quality DAB radio

- DAB for a clear and crackle-free radio experience
- DAB and FM compatible for a complete radio experience

Start the day your way

- Wake up to your favourite radio tune or a buzzer
- Gentle wake for a pleasant waking experience
- Dual alarm to wake you and your partner at different times
- Repeat alarm for additional snooze

Easy to use

- MP3 Link for portable music playback
- Adjustable display brightness for comfortable viewing
- Sleep timer helps you to drop off to your favourite music

PHILIPS

Highlights

Wake up to the radio or a buzzer

Wake up to sounds from your favourite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition

to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch to a power-efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Specifications

Sound

- Sound System: Stereo
- Volume Control: Volume Control up/down

Loudspeakers

- Built-in speakers: 2

Tuner/Reception/Transmission

- Antenna: FM Antenna
- Tuner Bands: FM Stereo
