Wake up to clear and crackle-free DAB radio

Wake up to multiple-source music with a large LCD display Philips Clock radio. A built-in clear and crackle-free DAB radio brings you more stations with rich warming music. Three dials on the front let you set up the time and alarm effortlessly.

Enjoy digital quality DAB radio

- DAB for a clear and crackle-free radio experience
- DAB and FM compatible for a complete radio experience
- Digital tuning with preset stations for extra convenience
- Dynamic Bass Boost for deep and dramatic sound

Easy to use

- Easy clock set for instruction-free time and alarm setup
- Auto-dimming light sensor for a comfortable viewing experience
- Auto time synchronisation ensures accurate time without fuss
- Large backlit LCD display for easy viewing in low light

Everything you need

- Wake up to your favourite radio tune or a buzzer
- Sleep timer automatically turns off radio at a pre-set time
- Adjustable repeat alarm for flexible extra-snooze time
- Gentle wake for a pleasant waking experience

PHILIPS

Highlights

Auto time synchronisation

With the automatic time setting function in your clock radio, you do not ever have to set the time. The clock synchronises with radio signals automatically, even when it is switched off. It updates itself within one minute when there is an immediate need for adjustment, and makes routine synchronisations with radio signals to ensure it keeps accurate time always. From the first time you take the clock radio out of the box, to the time a power outage occurs, you can depend on your Philips product to give you the right time, fuss-free and reliably.

Auto-dimming light sensor

Always be assured of being able to read the display, whatever time of day it is. The built-in light sensor reads the intensity of ambient light and then determines how bright the display needs to be to ensure clarity. During the day, or under strong lighting, the brightness automatically increases so you can see the display easily against the surrounding flood of light. At night, or under very low light conditions, the display softens, allowing you to

look at the display without discomfort, and letting you sleep without being disturbed by glare.

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can

enjoy consistent sound even when you turn down the volume.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Easy clock set

The time and alarm are so easy to set up that referring to the Quick Start Guide or Instructions For Use may not be necessary. Simply refer to the Clock radio's silkscreen buttons to set the time and alarm.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Specifications

Tuner/Reception/Transmission

- DAB: Band III, Info display, Smart Scan, Menu
- Tuner Bands: FM
- Auto digital tuning
- Station presets: 20
- Antenna: FM Antenna

Sound

- Volume Control: Volume Control rotary/encoder
- Output power (RMS): 1.5 W
- Sound System: Mono

Convenience

- Display Type: LCD
- Backlight
- Backlight colour: White
- Alarms: 24-hour alarm reset, Buzzer Alarm, Gentle

- Wake, Radio Alarm, Repeat alarm (snooze), Sleep timer
- Clock/Version: Digital

Power

- Mains power: AC mains

Accessories

- Included accessories: User Manual, Quick start guide, AC-DC Adapter, Warranty certificate

Dimensions

- Packaging dimensions (W x H x D):
245 x 105 x 82 mm
- Packaging type: D-box
- Product dimensions (W x H x D):
172 x 92 x 63 mm

Issue date 2013-09-13

Version: 2.0.8
