

Philips
Clock Radio

DAB+/FM, Digital tuning
Dual alarm

AJB4700

Rise to radio favourites

with DAB+ and FM radio

Let this Philips Clock radio bring the shine into your mornings. Rise to your favourite radio station, or to a traditional alarm ring. The radio also features dual alarms for different wake-up times, and delivers crystal clear DAB+ radio.

Enjoy digital quality DAB radio

- DAB and FM compatible for a complete radio experience
- Interference-free DAB radio
- Digital tuning with preset stations for extra convenience

Easy to use

- Wake up to your favourite radio tune or a buzzer
- Auto time synchronisation ensures accurate time without fuss
- Dual alarm to wake you and your partner at different times
- Gentle wake for a pleasant waking experience
- Sleep timer helps you to drop off to your favourite music

PHILIPS

Highlights

DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Interference-free DAB radio

DAB (Digital Audio Broadcasting) digital radio is, in addition to FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in crystal clear, crackle-free sound quality. The technology allows the receiver to lock onto the strongest signal it can find. With DAB digital stations there are no frequencies to remember and sets are tuned by station name, so there is no retuning on the move.

Digital tuning with presets

Simply tune into the station that you want to preset, then press and hold the preset button to memorise the frequency. With preset radio stations that can be stored, you can quickly access your favourite radio station without having to manually tune the frequencies each time.

Wake up to the radio or a buzzer

Wake up to sounds from your favourite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you

up and the other time to wake up your partner.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch to a power-efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.

Specifications

Clock

- Type: Digital
- Display: LCD
- Time format: 12 H, 24 H

Alarm

- No. of alarms: 2
- Alarm source: Buzzer, FM radio
- Snooze (repeat alarm): Yes, 9 mins
