

PHILIPS

Eco passport

Wireless portable speaker AT10

The USB cable included allows for very easy and convenient charging. Enjoy listening to music from the compact Philips all-in-one portable speaker. Simply choose your music source, from Bluetooth wireless streaming, FM radio, audio-in, USB or an SD card! A built-in rechargeable battery means music everywhere. This player's long-lasting power comes in the form of 20 hours of continuous music playback or FM radio listening - all on a single charge.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Work with built in rechargeable battery
- > 20 hours of playtime in one single charge
