- Product dimensions (WxDxH): 140x140x27.5mm
- Product weight: 0.2 kg

Power

- Battery Playing Time CD: 20
- Battery type: AA, LR6, UM3

Highlights

45-second ESP™

Electronic Skip Protection is a convenient feature that ensures skip-free music even when your CD player is subjected to knocks and jolts while you're jogging or on the move. Devices with Electronic Skip Protection have an intelligent electronic buffer that adjusts both its contents and laser spin speeds automatically to guarantee uninterrupted music listening.

FM radio headphones

Enjoy the convenience of listening to your favorite FM radio stations anytime, without having to carry your portable audio player with FM tuner. This combination of tuner functionality into the headphones allow you to enjoy FM music. Or you can switch off the radio, and simply plug them into your portable audio player to enjoy your own music. Savor up to 15 hours of non-stop FM music, thanks to its replaceable button battery.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.
