- Kind of Battery: Rechargeable

Highlights

Round, slim and compact

Slim Portable CD Player with round and compact footprint

Animated optical casing

Unique animated optical casing for fun and happiness

45-second ESP™

Electronic Skip Protection is a convenient feature that ensures skip-free music even when your CD player is subjected to knocks and jolts while you're jogging or on the move. Devices with Electronic Skip Protection have an intelligent electronic buffer that adjusts both its contents and laser spin speeds automatically to guarantee uninterrupted music listening.

Digital Dynamic Bass Boost

Digital Dynamic Bass Boost is an intelligent bass booster that delivers maximum bass enhancement at high volumes without sound distortion and at low volumes without compromising on bottom-end bass frequencies. Technologically advanced electronics constantly monitor volume and bass levels, precisely calibrating both to prevent sound distortion, thus producing optimized bass. Digital Dynamic Bass Boost enables the enjoyment of superb bass performance - regardless of the chosen volume level.

Headphone with volume control

Stereo headphone with handy volume control

Play CDs, CD-R and CD-RW

Philips is known for making products which are compatible with many discs available in the market. This audio system lets you enjoy music from CD, CD-R and CD-RW. CD-RW (CD-Rewritable Compatible) means that your audio system can play both CD-Recordable (CD-R) and CD-Rewritable (CD-RW) discs. CD-R discs are recordable once and can be played on any audio CD player while CD-RW discs can be recorded and rewritten multiple times and can only be played back on compatible audio CD players.
