Canada

English: This digital apparatus does not exceed the Class B limits for radio noise emissions from digital devices as set out in the Radio Interference Regulations in the Canadian Department of Communications.
Français: Cet appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de Classe B prescrites dans le Règlement sur le Bruitage Radioélectrique édicté par le Ministère des Communications du Canada.

The set complies with the FCC Rules, Part 15 and with 21 CFR 104.10.
Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IMPORTANT: No modifications not authorized by the manufacturer may void users authority to operate this device.

Envie hoy su Tarjeta de Registro de la Garantía para recibir todas las ventajas correspondientes.

- Una vez que se registre el compra de su aparato Philips, Ud tiene derecho a todos los ventajas correspondientes al dueño de un producto Philips.
Suscriba hoy y devuelva su tarjeta de Registro de la Garantía empacada con su aparato y saque provecho de estos ventajas importantes.

until you have found optimal reception.

To improve radio reception:

- For **FM**, extend, incline and turn the telescopic antenna. Reduce its length if the signal is too strong.
- For **AM**, the set uses a built-in antenna. Direct this antenna by turning the whole set.

Programming tuner stations:

You can store up to a total of 30 radio stations in the memory, manually or automatically (Autostore).

Autostore

Automatic programming will start from preset 1. The set will only program stations which are not in the memory already.

1. Press **ALBUM / PRESET-** or **+** once or more to select the preset number.
2. Press **PROG** for 4 seconds or more to activate auto store programming.
→ Display: **AUTOSTORE** is shown and available stations are programmed in order of waveband **FM**, followed by **AM**, preset 1 station will then be played after all stations are stored automatically.

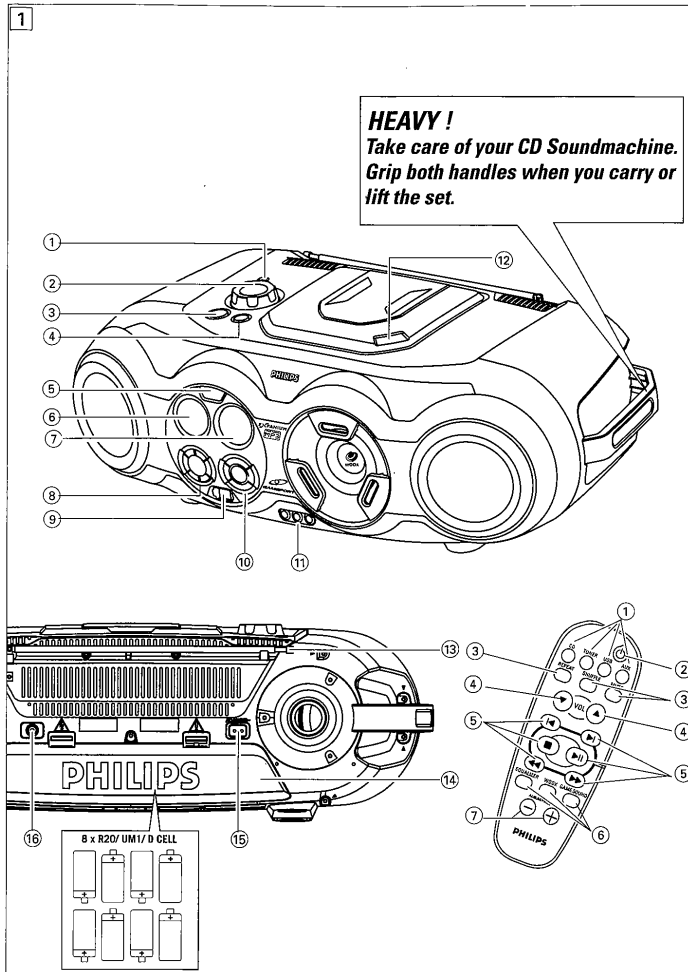

Manual programming

1. Tune to your desired station (see **Tuning to stations**).
2. Press **PROG** to activate programming.
→ Display: **program** flashes.
3. Press **ALBUM / PRESET-** or **+** once or more to allocate a number from 1 to 30 to this station.
4. Press **PROG** again to confirm.
→ Display shows the preset number, waveband and the frequency of the preset station.
5. Repeat the above four steps to store other stations.

Note: You can erase a preset station by storing another frequency in its place.

To listen to a preset station

Press **ALBUM / PRESET-** or **+** once or more until the desired preset station is displayed.
