

CD Radio Cassette Recorder

AZ2600

Portable CD Mini System

- **Compact Disc Digital Audio Player**

Unequalled in accuracy and realism, state-of-the-art compact disc technology is at your fingertips with some of the most sought-after features in the industry.

- **20-Track Programmable**

Store up to 20 of your favorite CD track selections to be played back in the order in which they are programmed.

- **Dual Stereo Cassette Decks**

Full function stereo cassette decks permits playback of music from your favorite artists as well as the ability to record from deck A to deck B or from other sources such as CD or AM/FM broadcasts. Control both decks using a simple, easy-to-use push button assembly.

- **Dynamic Bass Boost**

Boosts bass response as much as 8 decibels (nearly 3 times more than normal). DBB yields full, rich tonal quality at all volume levels.

- **Bass Reflex Speaker System**

Acoustically tuned ports offer increased bass response for richer, fuller low frequency reproduction.

- **AM/FM Stereo Tuning**

Rugged and reliable, this tuning system ensures quality station selection every time.

- **Two Detachable 4" Full Range Speakers**

For excellent sound reproduction across the entire audio spectrum.

Let's make things better.

Standard product information

CD Player

- **Compact Disc Digital Audio Player**

Unequaled in accuracy and realism, state-of-the-art compact disc technology is at your fingertips with some of the most sought-after features in the industry.

- **20-Track Programmable**

Store up to 20 of your favorite CD track selections to be played back in the order in which they are programmed.

- **Shuffle Play**

Plays all selections on a disc in random order, ignoring the sequential order in which they were originally recorded.

- **Continuous Calibration Digital to Analog (CC-DAC)**

A digital-to-analog conversion (DAC) process developed by Philips that uses the Least Significant Bit (LSB) of one byte of digital information as a reference to calibrate the bits flowing through the converter, increasing the precision of the analog waveshape applied to the speaker.

- **4x Oversampling**

Provides digital filtering to reduce noise and contributes significantly to the sound purity of compact discs.

- **Next/Previous Track Search**

This two-button feature offers the opportunity to go back to the previous track or go forward to the next track instantly.

- **Repeat One/All**

Selection of this feature repeats one track or all of the tracks on one disc based on user preference.

Tuner/Receiver

- **AM/FM Stereo Tuning**

Rugged and reliable, this tuning system ensures quality station selection every time.

- **Telescopic FM Antenna**

Adjustable to a variety of lengths this chrome-plated dipole antenna improves FM reception in any location.

- **Ferroceptor AM Antenna**

This built-in ferrite antenna improves portability and surpasses AM reception capabilities of other units not so well equipped.

Cassette

- **Dual Stereo Cassette Decks**

Full function stereo cassette decks permits playback of music from your favorite artists as well as the ability to record from deck A to deck B or from other sources such as CD or AM/FM broadcasts. Control both decks using a simple, easy-to-use push button assembly.

- **Electronical Tape Speed Control**

Micro-electronic circuitry constantly monitors cassette deck functions to ensure distortion-free playback and recording with minimum wow and flutter.

- **CD Synchro Start Recording**

One button allows the cassette deck and CD player to communicate with one another to synchronize the start of a recording on an analog audio cassette deck with the start of a CD or a CD program.

- **Full Auto Stop**

This feature senses a change in pressure when an audio cassette reaches the end and automatically stops the tape and disengages the transport mechanism.

- **Automatic Recording Level Control**

Micro-electronic circuitry constantly monitors the final audio amplifier stage to ensure accurate, distortion-free recordings every time.

Sound/Speaker

- **2 x 2.5 Watts RMS**

2.5 watts continuous RMS power output per channel, at 8 Ohms, from 120Hz-15kHz, with no more than 10% Total Harmonic Distortion (THD).

- **Dynamic Bass Boost**

Boosts bass response as much as 8 decibels (nearly 3 times more than normal). DBB yields full, rich tonal quality at all volume levels.

- **Bass Reflex Speaker System**

Acoustically tuned ports offer increased bass response for richer, fuller low frequency reproduction.

- **Two 4" Full Range Speakers**

For excellent sound reproduction across the entire audio spectrum.

- **Metal Mesh Speaker Grilles**

Perforated, anodized grilles protect delicate speaker components with smart, high-tech styling.

- **Tone Control**

For smooth, linear adjustment of bass and treble frequencies.

Additional Features

- **Six-Digit, Multifunction LCD Display**

The six-digit Liquid Crystal Digital (LCD) display alerts the user to the status of all important functions at a glance.

- **Stereo Headphone Jack**

Enjoy your favorite CD, cassette, or radio station with full, rich stereo separation without disturbing others.

- **Built-in Carry Handle**

This rugged, integrated handle makes it easy to take your music with you anywhere you go.

- **AC/DC Operation**

For convenience this feature can't be beat. Listen to your favorite artists any time or anywhere using the detachable AC power cord or batteries available at any corner store.

- **Operates on Six D Batteries**

Six D-cell batteries provide hours of uninterrupted music enjoyment anywhere you want to go.

UPC: 037849832714

Product Dimensions: 24.4"W x 9.9"H x 8.1"D

Product Weight: 13.5 lbs.

Individual Package Dimensions: 16.3"W x 12.4"H x 20.5"D

Individual Package Weight: 15.9 lbs.

Master Pack: 1

Carton Contains: CD AM/FM Portable Mini System, Detachable AC Cord, Operating Instructions, Warranty Information.
