Easy navigation via remote control

Fully featured remote control for convenient operation of CD, volume and tuner controls.

Dynamic bass boost

An electronic circuit that enhances bass frequencies up to 3 times to compensate for the insensitivity of the human ear for bass frequencies at lower volume levels.

Bass reflex speaker system

Acoustic system that enhances the upper bass tones to provide a warmer, punchier bass sound.

CD shuffle/ program/ repeat

Stores your favorite CD tracks for playing back in your order of preference, or plays all selections on a disc in random order, giving you a new sequence of tracks every time.

Digital tuning with presets

Provides fast, accurate tuning to your favorite stations

CD-R/RW compatible

CD player capable of playing all music CDs, including CD-Recordable and CD-Rewritable discs.
