- Important safety instructions.
- Other possible connections (for example, digital audio).

I

Prepare

A Prepare the remote control

- 1 Open the battery compartment of the remote control.
- 2 Insert the batteries correctly.
- 3 Close the battery compartment.

2

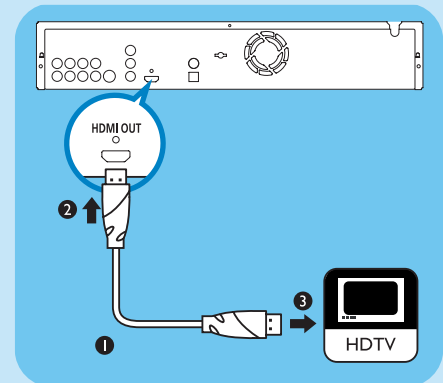

Connect

For more information about the ports on your TV, refer to the user manual of your TV.

A Connect the TV

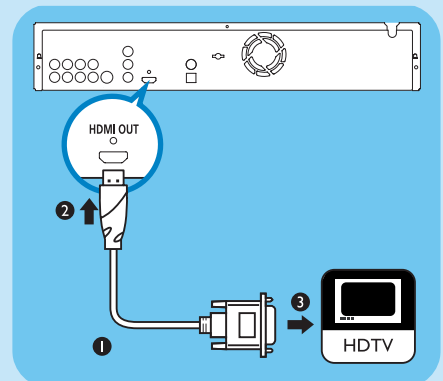

Option 1 - Best high-definition quality - For TVs with an HDMI port:

1. Take the supplied HDMI cable (g).
2. Plug one end of the HDMI cable into the **HDMI OUT** port.
3. Plug the other end of the HDMI cable into the TV.

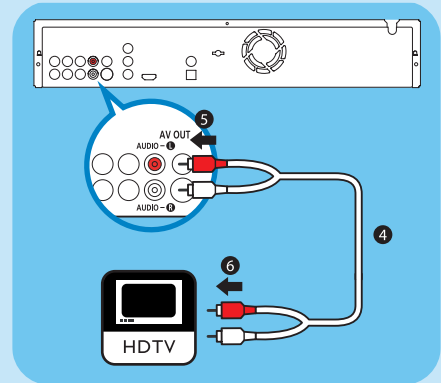

Option 2 - Best high-definition quality - For TVs with a DVI port:

1. Take a HDMI-DVI cable (not supplied).
2. Plug one end of the HDMI-DVI cable into the **HDMI OUT** port.
3. Plug the other end of the HDMI-DVI cable into the TV.

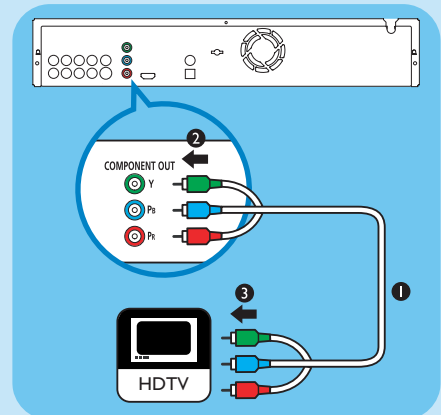

4. Take the supplied audio cable (i).
5. Plug one end of the audio cable into the **AUDIO-L** and **AUDIO-R** ports.
6. Plug the other end of the audio cable into the TV.

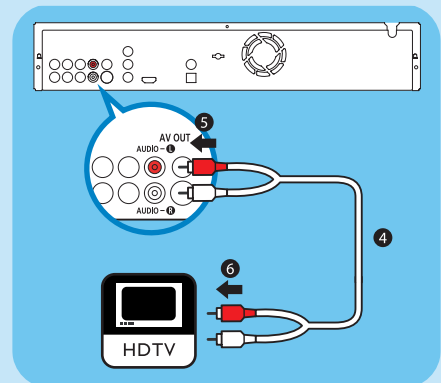

Option 3 - Good quality - For TVs with component video ports:

1. Take the supplied component video cable (h).
2. Plug one end of the component video cable into the **Y**, **Pb** and **Pr** ports.
3. Plug the other end of the component video cable into the TV.

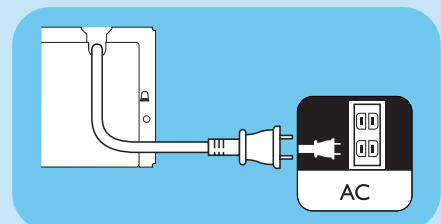

4. Take the supplied audio cable (i).
5. Plug one end of the audio cable into the **AUDIO-L** and **AUDIO-R** ports.
6. Plug the other end of the audio cable into the TV.

B Connect to the power outlet

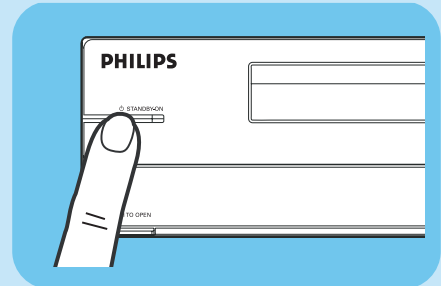

1. Plug the power cable into the power outlet.
 > The **STANDBY-ON** light comes on as red.

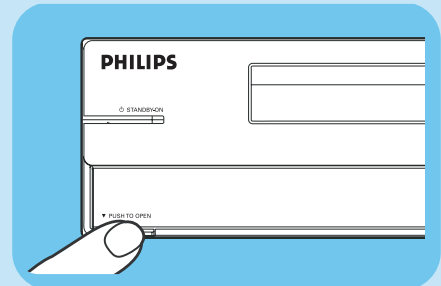

3

Set up

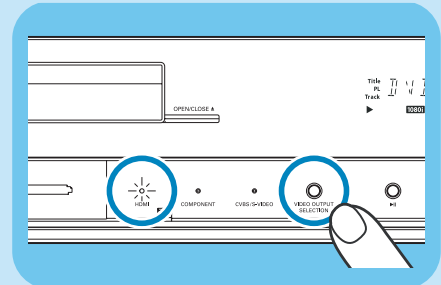

1. Turn the TV on.
2. Set the TV to the correct external input.
3. Press the **STANDBY-ON** button.
 - > The **STANDBY-ON** light comes on as blue.

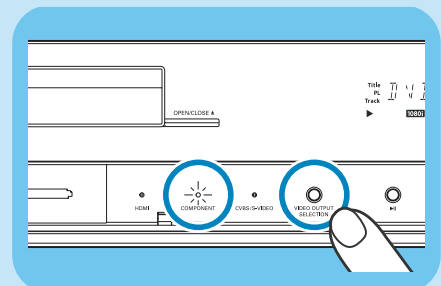

4. Open the user access panel.

5. If the TV connection is HDMI (refer to 1A), press the **VIDEO OUTPUT SELECTION** button until the **HDMI** light comes on.
 - > The video signal of the Blu-ray Disc player shows.

6. If the TV connection is component video (refer to 1B), press the **VIDEO OUTPUT SELECTION** button until the **COMPONENT** light comes on.
 - > The video signal of the Blu-ray Disc player shows.

7. Follow the on-screen instructions.

Menu language selection

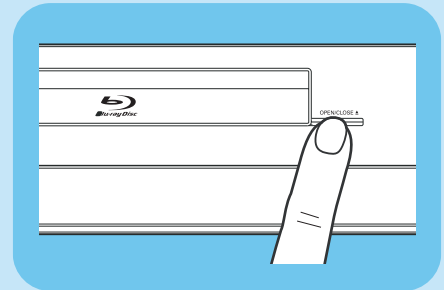

Press 1 for English
Pulsar 2 para Español
Touche 3 pour Français

4

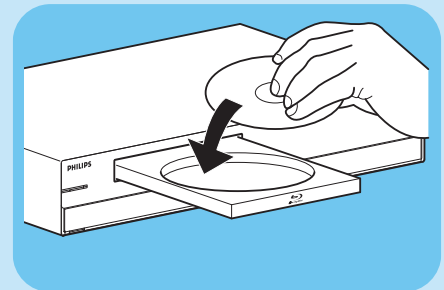

Enjoy

A Load a disc

1. Press the **OPEN/CLOSE** button.
> *The disc tray opens.*

2. Put the disc in the disc tray with the label on the top.

3. Press the **OPEN/CLOSE** button again.
> *The disc tray closes.*

B Control a disc

You can now enjoy your Blu-ray Disc player. Control the disc with:

- The supplied universal remote control.
- The buttons on the front of the Blu-ray Disc player.

Troubleshooting

Problem

Tip

Cannot play a disc

- Put the disc in the disc tray with the label on the top.
- Make sure that the Blu-ray Disc player supports the disc type.
- Make sure that the Blu-ray Disc player supports the region code of the DVD or BD.

No video signal on the connected TV

- Turn the TV on.
- Set the TV to the correct external input.
- Use the **VIDEO OUTPUT SELECTION** button to set up the video output. Refer to 3. Set up.
- Do as follows:
 1. Press-and-hold the ►► button on the front panel for 5 seconds.
> *The factory default settings are restored.*
 2. Do the set-up again. Refer to 3. Set up.

Bad video signal on the connected TV

- Clean the disc.
- Make sure all cables are firmly inserted.

Incorrect aspect ratio on the connected TV

- Change the aspect ratio of the TV. Refer to the user manual of your TV.
- Change the aspect ratio on the Blu-ray Disc player. Refer to the user manual.

No audio signal

- Increase the volume level.
- Make sure that the audio settings of the TV are correct. Refer to the user manual of your TV.
- Try another track on the disc.
