# Highlights

## Ergonomic S-shaped handle

The ergonomic S-shaped handle is easy to steer for maximum control and better reach from head-to-toe.

## Micro-ridged ceramic discs

The epilator head is made from a unique ceramic material with a micro-ridged surface that firmly grabs the hair so even your finest hairs won't slip from its grip.

## Widest epilation head

Widest epilation head grabs more hairs in a single stroke for optimal long-lasting hair removal results.

## Patented epilation system

Philips' patented epilator system gathers hairs that are lying flat, guides them to the pulling point and firmly removes them. Combined with perfectly round ceramic discs, it epilates closer to the skin and provides even more gentleness.

## Wet and dry use

For gentle and comfortable use during your shower or bath routine with an anti-slip grip.

## Opti-light

Unique built-in light ensures less hairs are missed for a more effective epilation.

## 90 degree angle

The Philips Satinelle will always give you the best performance when used at a 90 degree angle.

## Shaving head and comb

The shaving head and comb provide a close shave and more gentleness in different body areas.

## Facial and Delicate area caps

For more gentleness from head to toe, the Facial cap removes unwanted facial hair and the Delicate area cap removes hair from the underarms and bikini area.
