USB
Built-in microphone for calls
20W, rechargeable battery

BT122

Your all-in-one wireless portable speaker

Enjoy listening to music from the Philips all-in-one portable speaker. Play your favorite tunes via Bluetooth, USB and audio-in connectivity. The speaker is compact and comes with rechargeable battery and FM Radio.

Enjoy music from multiple sources

- Built-in Digital FM radio
- Audio-in for easy portable music playback

Easy to use

- Built-in rechargeable battery
- Clear and bright LED display

Simplicity

- USB Direct for easy MP3 music playback

Simplicity in use

- Works with any Bluetooth-enabled device

Impressive sound

- 20W RMS total output power

PHILIPS

wireless portable speaker
Bluetooth USB, Built-in microphone for calls, 20W, rechargeable battery

Specifications

Left/Right speakers

- Speaker driver: 2 x 2" Full range
- Driver power range: 10W x 2
- Frequency range: 70Hz-20kHz

Audio system

- Output power in total: 12W RMS (maximum)
- Frequency range: 70Hz-20kHz
- Signal/Noise ratio: > 50dB
- THD: < 1%
- Input sensitivity: 600mV

Audio Playback

- Audio supported format: MP3
- Playback Media: USB flash drive
- Playback mode: Next/previous track search, Play and Pause

Convenience

- Display type: LED display

Connectivity

- Audio in (3.5mm)

Tuner/Reception/Transmission

- Tuner bands: FM

Accessories

- USB cable: for charging

Power

- Battery type: Built-in lithium polymer
- Music play time: 4 hr

Highlights

Bluetooth-enabled

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to other Bluetooth devices, so you can play your favorite music from any smartphones, tablets or even laptops including iPod or iPhone on Bluetooth-enabled speaker easily.

20W RMS

This system has 20W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Digital FM radio

Digital Radio is, on top of FM analog transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can be find. With digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no returning on the move.
