# Highlights

## Lift & Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

## Full metal blades

This trimmer comes with twice-sharpened full metal blades that cut more hairs in every pass for faster trimming.

## DuraPower technology

This beard trimmer uses DuraPower technology to reduce friction on the blades, preserve the motor, and keep your battery going four times longer.

## Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

## Precision Dial - 20 settings

An effective beard trimmer that cuts to the exact length you're after. Just spin the zoom wheel to one of 20 length settings between 0.5 and 10mm in 0.5mm increments.

## 90 min corded/cordless use

Charge your trimmer for 1 hour to get 90 minutes of cordless use or use it plugged in while charging.

## Battery indicators

The battery indicators in this trimmer let you know what your battery status is: Low, empty, charging or full. This way, you can charge your

trimmer on time and fully, so you won't end up with an empty battery in the middle of your trim.

## Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

## Ergonomic design

A fast trimmer that's comfortable to hold and use. So you can handle those hard-to-reach areas more easily.

## Built for durability

We back this Philips trimmer with a 3 year\* worldwide warranty. You'll never need to oil it, and it's compatible with all worldwide voltages.

## Travel and storage pouch

The included travel pouch keeps everything together when you're at home, at the gym or on-the-go.
