Highlights

Perfect precision

With cutting lengths ranging from 1/64" to 13/32" (0.4mm to 10mm), you can get the exact trim you want. The length settings go up in precise 1/127", 1/32", and 3/64" (0.2mm, 0.5mm, and 1mm) steps in between – giving you perfect precision with control.

17 lock-in length settings

To select your preferred trim length, just turn the zoom wheel on the handle until the length you want is displayed. Your chosen length is now 'locked in' for a precise and even trim.

Dual-Sided trimmer

The dual-sided reversible trimmer gives you the versatility to create your unique look. On one side, the 1 17/64" (32mm) high-performance trimmer cuts very close while protecting your skin. On the other side, the 5/8" (15mm) precision trimmer creates a detailed look, even in those hard-to-reach areas like under the nose and around the mouth. The trimmer's small size and angled design make it easy to see what you are doing for accurate fine lines and details.

Skin-friendly high performance

The steel blades lightly brush against each other, so they sharpen themselves as you trim! The blades stay extra-sharp to always cut hairs neatly and effectively, but have rounded blade tips and combs to prevent skin irritation.

Water-resistant

To clean, simply rinse the water-resistant trimmer under the tap.

Beard comb

The design of the beard comb gives you more control, allowing you to trim your beard perfectly evenly.

Perfect stubble every day

If you want that perfect stubble look, just use the trimmer's short 1/64" (0.4mm) setting. For a perfectly groomed longer beard, simply adjust the setting to the exact length you need.

Built to last

All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage compatibility, and they never need to be oiled.

Rechargeable and corded use

You get 60 minutes of cordless use after a 1-hour charge. If you run out of battery power while trimming, just plug it in and keep trimming.
