# Highlights

## Integrated vacuum system

Trim your beard, moustache and sideburns while keeping tidy with this trimmer. Its powerful vacuum catches cut hair as you go along, giving you a mess-free trim.

## Innovative lift-and-trim system

Trim your stubble in one quick stroke. Our innovative lift-and-trim system raises each hair and then guides it towards the double-sharpened stainless steel blades. The result is even stubble or an even trim in just one go.

## Double-sharpened blades

Strong steel blades are double-sharpened and made to last a very long time to cut through even thick hair. They sharpen themselves by lightly brushing against each other as you trim.

## 20 lock-in length settings

Select your preferred trim length by simply turning the zoom wheel on the handle until the length you want is displayed, from 0.5 - 10 mm with 0.5-mm precision. Your chosen length is now "locked in" for a perfectly even trim.

## Corded and cordless use

Charge your beard trimmer for 1 hour to get 60 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to work both cordlessly and while plugged in.

## Battery indicator

The battery indicator shows when your trimmer's battery is empty, charging or full.

## Precision trimming

When you have finished trimming, just click on this precision trimmer to finish up your style by defining details and edges or trimming your moustache.
