

Espresso machine descaler

- 1 descaling cycle

CA6700/47

Perfect protection for your espresso machine

Prolonges your machine lifetime

Decalcifying your espresso machine regularly is essential to make sure it keeps performing at its best. This special espresso machine descaler removes scale and prevents corrosion, protecting your appliance and extending its lifetime.

Benefits

For a long lasting espresso appliance

- Exclusive formula for safe and gentle decalcification
- Protects your system against limescale build-up
- Perfect decalcification for a prolonged machine lifetime

Sensational coffee quality

- Maintains the coffee taste over time as in your first cup
- Ensures the coffee temperature is right for enhanced taste

Features

Better taste and aroma

Regular maintenance of your espresso ensures the best taste and aroma from your Saeco espresso machine

Coffee temperature

The decalcifier removes limescale residues in the water cycle that would absorb heat from the boiler, therefore lowering your coffee temperature.

Exclusive formula

The exclusive formula of the Philips Saeco espresso machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

PHILIPS

Reduces limescale build-up

Limescale is a natural part of water used for the machine's operation. This special decalcifier protects your appliance from the build-up of limescale which affects performance and taste. It is highly effective, safe and easy to use.

Special espresso decalcifier

The Philips Saeco decalcifier cleans all the water circuits in your espresso machine
