- MP3 Link for portable music playback

Start the day your way

- Wake up to your iPod/iPhone/iPad music or radio tunes
- Weekday/weekend alarm setting to complement your lifestyle
- Gentle wake for a pleasant waking experience

Design that blends into your interior

- Aluminium cabinet for quality look and feel

PHILIPS

Highlights

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Wake up to iPod/iPhone/iPad/FM

Wake up to the music that you love the most. Select your favourite radio station or soothing tunes from your iPod/iPhone/iPad and make a difference to your mornings. The clock starts to play your selection softly, with gradual increases in volume, until it reaches the volume level of your choice. Now you can control how you wake up and start your day right every single time.

Auto clock synchronisation

When connected and docked, this docking system will automatically synchronise the clock with your iPod/iPhone/iPad within a few seconds. With this convenient feature, you do not need to set the time manually.

Weekday/weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature,

allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient feature saves you from the hassle of fiddling with different alarm times every single night.

Dock your iPod/iPhone

Smartly designed spring-loaded docking port effortlessly accommodates your iPod or iPhone, without special adaptors. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.
