# Highlights

## Play and charge your iPod

Enjoy your favourite MP3 music while charging your iPod! The dock lets you connect your iPod directly to the Docking entertainment system so you can listen to your favourite music in superb quality. It also charges your iPod while it plays so you can enjoy your music and not have to worry about your iPod battery running out. Use the remote control to navigate, select and playback the music stored on your iPod. The Docking entertainment system automatically charges your iPod while it is docked.

## DAB+, DAB and FM

DAB+/DAB (Digital Audio Broadcasting) digital radio is, on top of FM analogue transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear and crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB+ or DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.
