DCM129

Relax to great music

Obsessed with sound

Experience your iPod music in superb sound quality with the Philips DCM129 Docking Entertainment System. Just dock your iPod and enjoy music the way you like it. DCM129 also offers fast and precise tuning via its 20 preset stations.

Enjoy your music from multiple sources

- Play and charge your iPod/iPhone simultaneously
- Play CD, CD-R and CD-RW
- MP3 Link for portable music playback

Enrich your sound experience

- Dynamic Bass Boost for deep and dramatic sound
- Bass Reflex Speaker System delivers a powerful, deeper bass

Easy to use

- Digital tuning with 20 preset stations for extra convenience
- Single remote control for the system and iPod
- Compact design

PHILIPS

Highlights

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the

system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Play & charge your iPod/iPhone

Enjoy your favorite MP3 music while charging your iPod/iPhone! The dock lets you connect your portable device directly to the Docking entertainment system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The Docking entertainment system automatically charges your portable device while it is docked.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Specifications

Sound

- Output Power: 6W RMS
- Volume Control: Volume Control up/down
- Sound Enhancement: Dynamic Bass Boost
- Sound System: Stereo

Loudspeakers

- Main Speaker: 3" woofer, Bass Reflex Speaker System
