dock for iPhone/iPod

DCM292

Obsessed with sound

Sound that fits your home

Play and charge your iPhone/iPod with the Philips sleek micro music system. Sleek, flat and wall-mountable, it fits any decor. Enjoy music from CDs, or connect your portable player to the USB Direct or MP3 link for all-round music pleasure.

Enjoy your music from multiple sources

- Play and charge your iPod/iPhone simultaneously
- USB Direct for MP3/WMA music playback
- Digital tuning with preset stations for extra convenience
- Play MP3/WMA-CD, CD and CD-RW
- MP3 Link for portable music playback

Enrich your sound experience

- Digital Sound Control for optimized music style settings
- Dynamic Bass Boost for deep and dramatic sound
- 20W RMS total output power

Design that blends into your interior

- Motorized sliding front door adding style and elegance
- Wall-mountable option for flexible placement

PHILIPS

Sleek micro music system
dock for iPhone/iPod

Highlights

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Play & charge your iPod/iPhone

Enjoy your favorite MP3 music while charging your iPod/iPhone! The dock lets you connect your portable device directly to the Docking entertainment system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The Docking entertainment system automatically charges your portable device while it is docked.

USB Direct

With the USB Direct mode, you can simply select the music on a USB device and playback all your content. All you have to do is plug in your USB device to playback music or export content from the device.

DCM292/37

Digital tuning with presets

Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Motorized sliding front door

A motorized sliding front door adds even more panache to the already sleek design of this system. The stylish yet functional door housing the disc slides up and down vertically in a smooth motion at the touch of a button whenever you feel like changing your music selection. Just sit back and enjoy the dynamic sound performance while watching the disc play through the transparent window.

Play MP3/WMA-CD, CD and CD-RW

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your Philips player. Download MP3 or WMA songs from authorized music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

Specifications

Sound

- Sound enhancement: Dynamic Bass Boost, digital sound control
- Volume control: up/down
- Output power: 2 x 10 W RMS
