Dock for iPod/iPhone/iPad

DCM7005

Enjoy high fidelity music

Obsessed with sound

Enjoy audio that is natural and detailed, thanks to Hi-Fi dome tweeters. Built with aluminum for a sturdy stylish finish, this set plays and charges your iPod/iPhone/iPad. Listen to MP3s, radio and other devices via MP3 Link and USB Direct.

Enrich your sound experience

- Hi-Fi dome tweeter for detailed and natural sound
- Class 'D' digital amplifier for quality sound performance
- Treble and Bass Control for easy high and low tone settings
- Gold-plated speaker connector for finest signal transmission
- 100W RMS total output power

Enjoy your music from multiple sources

- Play and charge your iPod/iPhone/iPad
- Play MP3/WMA-CD, CD and CD-RW
- USB Direct for MP3/WMA music playback
- MP3 Link for portable music playback

Premium finishing with noble materials

- Aluminum cabinet for quality look and feel

PHILIPS

Highlights

Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music while bass controls the amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to playback music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

Class 'D' Amplifier

Class 'D' Digital Amplifier takes an analog signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, Class 'D' Digital Amplifier has greater than 90% efficiency compared to traditional AB amplifiers. This high efficiency translates into a powerful amplifier with a small footprint.

Play & charge iPod/iPhone/iPad

Enjoy your favorite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favorite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

Gold-plated speaker connector

The Gold-plated speaker connector ensures better audio signal transmission compared to traditional click-fit connections. It also minimizes the electrical signal loss from the amplifier to the speaker box, resulting in sound reproduction that's as close to reality as possible.

Specifications

Sound

- Output power (RMS): 2 x 50 W
- Sound Enhancement: Treble and Bass Control, Class "D" Digital Amplifier, Loudness

Loudspeakers

- Loudspeaker types: Dome tweeter
