Highlights

18 cm/7" TFT color LCD (16:9)

The color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss that comes from scaling, altering an image to fit on a different screen size.

AC adaptor, car adaptor

This Philips player comes with AC adaptor, car adaptor and AV cable for your convenience.

Rear seat mounting kit

To enjoy entertainment on the go, why not bring your Philips player from home on the road with you? A rear seat mounting kit ensures ease-of-use that facilitates easy removal of the player when not in use. You can bring the portable player with you, leaving just the mount behind in the car.

Retractable dock for iPod

Compact design, thanks to the retractable dock for iPod.

Up to 5-hour video playback

Forget about the hassle of having to recharge your Philips player battery constantly. This longlasting power allows you to savor your movies for up to 5 hours of video playback - all on a single charge. Now you can sit back and watch the equivalent of 2 movies back-to-back wherever you go.

Video output

Video output for second screen connection.
