Highlights

Continuous heart rate monitor

Monitor your heart rate and heart rate zones in real time. The Opticardiogram clinically validated sensing technology tracks Heart Rate (HR), HR Zones, Resting HR and HR Recovery.

Know how fit your body is

Get insights into the number of breaths you take per minute by tracking your resting respiration rate.

Automatic activity recognition

Track your steps and active minutes against your own goals or recommended healthy standards. Be it walking, biking or running, your activities are tracked automatically. And if you don't do any of these, expect a nudge to start moving!

Automatic sleep tracking

Automatically track your sleep duration, with insights into REM, deep and light sleep stages. Activate the sleep mode to measure your sleep efficiency so you can see the percentage of time in bed that you were actually asleep. A good night can set you up for a healthy, active day.

Calorie input on the watch

Quick and easy input calories on the watch or in the app. Make more informed choices about food by tracking daily nutrition and calorie consumption.

Syncs with Philips health app

Our easy to use HealthSuite health app uses data from the Philips range of connected health devices so you can continuously monitor your vitals. Bringing you a comprehensive, dependable picture of your health, as well as personalized feedback and

advice that you can follow at the pace that's right for you. Compatible with: iOS 9.3 or higher / Android 4.4 KitKat or higher. For an overview of (in)compatible devices please have a look at www.philips.com/personalhealthcompatibility

Up to 4 days on a charge

Up to 4 days of battery life. Fast charge enables approx. 70% charge in 30 min.

Water resistance

Your device is water and dust resistant (IP67). Will withstand exposure to rain and dust.
