Highlights

Access to all controls

The openings on this case allow convenient access to all controls and the dock connector, so you can use your device while it's protected inside the case.

Shock-absorbing case

This case is made out of thermoplastic polyurethane, which is a high-performance elastomer, to add both grip and shock-absorption in one unique case.

Crystal clear screen protector

The crystal-clear film adds an invisible layer of protection against scratches and dust to your device's display screen. It works using static adhesion, so it's easy to apply and remove without leaving any sticky residue.

Slim, pocket-friendly design

The slim design adds protection with minimal added bulk, so your device still fits easily into your pocket or bag for protection on the go.

Wrap-around protection

The material of this case wraps around from back to front, providing protection for the corners and perimeter of your device's face.

Protection in an instant

This case is made from a durable material that is custom-made to fit your device perfectly. The case is quick and easy to put on and adds a layer of protection to your device.
