# Highlights

## Protective silicone

This case is made out of soft silicone which adds a layer of grip to your player, while it also protects your device against normal wear and tear.

## Wrap-around protection

The material of this case wraps around from back to front, providing protection for the corners and perimeter of your device's face.

## Slim design

This case is designed to add protection with minimal bulk, so you can easily carry your device in your bag or backpack for protection on the go.

## Covered buttons

The case material covers the volume buttons, giving you push-through control while your device stays protected.
