Highlights

Protective silicone

This case is made out of soft silicone, which adds a layer of grip to your player while also protecting your device against normal wear and tear.

Wrap-around protection

The material of this case wraps around from back to front, providing protection for the corners and perimeter of your device's face.

Slim design

This case is designed to add protection with minimal bulk, so you can easily carry your device in your bag or backpack for protection on the go.

Covered buttons

The case material covers the volume buttons, giving you push-through control while your device stays protected.
