

## Software history

### Note:

- Each release contains all solutions identified in the earlier version.
- The filename of the upgrade files are a .hex file and a bin file . The filename may NOT necessary be the same as the model number.
- After you download the upgrade file, extract (unzip) it to a known space on PC. Follow the upgrade instructions carefully.
- After updating the device, some settings might be erased. Please refer to the user manual for the set-up after updating the device.

---

**The latest software solves the issues below:**

**Version: MCU: v35, MPEG: v31A**

- Fix the issue that the system will go to standby mode after 15mins when connected to TV via HDMI ARC connection
- Performance enhancement
