

Philips
Micro music system

Bluetooth®
with Lightning connector

DTM3170

Rich and powerful sound

Obsessed with sound

Compatible with iPhone 5 and iPad mini's Lightning connector, even with wireless music streaming via Bluetooth, the Philips Micro sound system sets your music free with details and the powerful bass of wOOx technology.

Enrich your sound experience

- wOOx™ loudspeaker Technology for deep and powerful bass
- Digital Sound Control for optimised music style settings
- Dome tweeter for detailed and natural sound
- 150W RMS maximum output power

Enjoy your music from multiple sources

- Wireless music streaming via Bluetooth
- Fast charging and play music via Lightning connector
- USB Direct for easy MP3 music playback
- Audio-in for portable music playback

Easy to use

- Motorised CD loader for convenient access
- Radio Data System for station information and data services
- All-in-one remote control for your system and iPod/iPhone/iPad

PHILIPS

Micro music system
Bluetooth® with Lightning connector

DTM3170/12

Highlights

Play and charge via Lightning

Enjoy your favourite music while charging your iPod/iPhone/iPad via the new Lightning connector! Just dock it directly on the speaker to play your hand-picked tunes in superb sound. It also charges your device quickly while it's playing, so you don't have to worry about the battery running out.

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically

adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Audio-in

The Audio-in connectivity allows direct playback of Audio-in content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Specifications

Sound

- Maximum output power (RMS): 150 W
- Sound Enhancement: Digital Sound Control

Loudspeakers

- Main Speaker: 2-way, wOOx Bass Radiator
- Loudspeaker types: Dome tweeter
