Power

- **Power supply:** 50Hz, 220-240V
- **Power consumption:** 32 W
- **Standby power consumption:** < 5 W

Accessories

- **Included Accessories:** Quick start guide, Remote Control, User Manual, 2 x AAA Batteries, World Wide Warranty leaflet, RF antenna cable

Dimensions

- **Set dimensions (W x H x D):** 435 x 100 x 344 mm
- **Packaging dimensions (W x H x D):** 540 x 175 x 447 mm
- **Set weight:** 5.2 kg
- **Weight incl. Packaging:** 7.0 kg

Product highlights

i.LINK digital input

Also known as IEEE 1394 and FireWire, i.Link carries all audio and video signals via a single cable digitally, with no loss in picture and sound quality. With i.Link digital video input, you can copy your home videos in their original digital picture quality.

Direct Dubbing (VHS to DVD)

Having a Direct Dubbing button allows for the user to start recording from the video tape without complicated menu system selection or input/output selection for separates.

Dual Media

Philips DVD Recorders support 'dual media' recording - the ability to create recordings on DVD+R/RW and DVD-R/RW discs. Now you can buy any disc and the Philips recorder will always create fully compatible recordings, which can be played by any DVD player.

Multi-format playability(DivX)

Multi-format playability allows you to play most file formats for maximum listening and viewing pleasure, including MP3, WMA, JPEG and the popular DivX digital media format. DivX playback enables you to play and share compressed high quality DivX video content beyond your computer.

VIDEO Plus+

With the VIDEO Plus+ system, all you need to do to program your video recorder is to enter the 'Pluscode' - a single code of up to nine digits (but usually less) that is printed next to each TV program in most TV guides.
