

Philips PowerGo Vacuum cleaner with bag

The Philips PowerGo vacuum cleaner delivers top cleaning performance with low energy consumption. Keep the air in your home clean and healthy, too, thanks to our Allergy Filter that traps 99.9%+ of harmful particles.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Standby energy <0.5W
- Annual energy consumption:
 - 28 kWh/year*
- Input power 750W**

Packaging
