High suction power for a deep clean Hygienic cleaning with AirflowMax

The new Philips Performer Active vacuum cleaner delivers full cleaning performance with hygienic dust removal. AirflowMax technology keeps the suction power stronger for longer*. The MultiClean nozzle removes dust efficiently on all floors.

Remarkable cleaning results

- Revolutionary AirflowMax technology for strong suction power
- Powerful 2100 Watt motor for excellent cleaning results
- New MultiClean nozzle for thorough cleaning on all floors
- Turbo brush, perfect for homes with pet hair

Maximum convenience

- Integrated brush for ultimate convenience
- ActiveLock couplings to easily adjust to each cleaning task
- Soft bumper for easy gliding along furniture and walls
- 4L dust capacity for longer cleaning

Hygienic cleaning

- Allergy filter captures more than 99.90% of fine dust
- s-bag Classic Long Performance lasts up to 50% longer

Highlights

AirflowMax technology

The unique AirflowMax technology keeps the suction power stronger for longer* to use the bag to the very end. The technology is built around the optimization of three key elements: 1) Unique ribs profile inside the dust chamber to maximize airflow around the dustbag and enable the use of the entire bag surface. 2) Specially designed dust chamber capacity that allows the dustbag to fully unfold uniformly. 3) High quality, non-clogging fibre structures in the dustbag absorb dust without blocking the pores, thus avoiding a reduction in suction power.

Integrated Brush

The vacuum cleaner is designed with integrated accessories, so that you do not need to carry extra pieces around while you clean. The soft dusting brush is conveniently integrated in the handle of the appliance, always ready to use.

ActiveLock couplings

The ActiveLock couplings allow you to easily connect and disconnect the different nozzles and accessories from the telescopic tube while cleaning.

Soft bumper

The soft bumper protects furniture and prevents damage if you accidentally bump into your furniture or walls and stops it from getting stuck on edges, so you can move around faster.

Allergy filter

Developed to meet the specific needs of allergy sufferers and more generally of people demanding a higher level of hygiene.

s-bag Classic Long Performance

This new Philips synthetic dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high performance level and maximum filtration, up to the moment the dust bag is full and ready for disposal.

4L dust capacity

The specially designed 4L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

Turbo brush

The Turbo brush allows deep cleaning of carpets, easily removing hair and fluff. The rotating brush inside the nozzle actively removes small dust particles and pet hair, resulting in a better cleaning performance.

MultiClean nozzle

The new MultiClean nozzle delivers a thorough cleaning on all types of floors. The nozzle is designed with a large front opening to pick up big crumbs, while at the same time it seals closely to the floor to ensure a good pick-up of the fine dust.

Specifications

Performance

Airflow (max): 40,17 l/s
Input power (IEC): 1800 W
Input power (max): 2100 W
Sound power level: 82 dB
Suction power (max): 450 W
Vacuum (max): 23 kPa

Usability

Action radius: 9 m
Carrying handle: Front
Cord length: 6 m
Tube type: Metal 2-piece telescopic tube

Wheel type: Rubber
Tube coupling: ActiveLock
Power control: Rotary knob

Design

Color: Dark Royal Blue

Filtration

Dust bag type: s-bag Classic Long Performance
Dust capacity: 4 L
Exhaust filter: Allergy filter
Motor filter: Microfilter

Nozzles and accessories

Accessories included: Crevice tool, Integrated brush
Additional nozzle: Turbo brush
Standard nozzle: MultiClean nozzle

Sustainability

Packaging: > 90% recycled materials
User manual: 100% recycled paper

Weight and dimensions

Dimensions of product (LxWxH):
447x304x234 mm
Weight of product: 5,2 kg
