# Highlights

## Lasting suction power

Thanks to its Cyclone Filter technology, the Marathon maintains a high level of suction power over time, whereas average vacuum cleaners lose suction power quickly as their dust bag or filter becomes clogged.

## EPA 12 filter

This special outlet filter captures 99.5% of the dust before the air is blown back into your room, ensuring a clean, dust-free, environment.

## Turbo nozzle

The turbo brush nozzle removes 50% more fluff from carpets than standard nozzles. The rotating brushes also restore the pile during every cleaning job, keeping carpets and rugs in optimum condition.

## TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimized airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.
